Health Resources and Services Administration

PUBLIC COMMENTS REMEDIATIONS

COVID-19 Provider Relief Fund (PRF) Reporting Activities

OMB No. 0906-0068-Revision

The Health Resources and Services Administration (HRSA) is submitting an explanation of remediations to issues raised previously in the 2022 package that has been fixed with the latest revisions in the 2023 package. Details on the remediation enhancements are provided in the "PRF Reporting Activities 6 PRF Portal Enhancements" document and included in the tables listed below.

Public Comments to FRN (2021 Package)

Date	From	Organization	Inquiry/	Response	Remediation
Received			Comment		
07/26/2021	Claire Ernst, Director Government Affairs	Medical Group Management Association	I'm writing to inquire further about the COVID-19 Provider Relief Fund Reporting Activities ICR. Specifically, I would like clarification on whether the "total estimated annualized burden hours" table represents total burden hours for PRF recipients or for HRSA staff? The notice states that HRSA is seeking comments from the public regarding the	Thank you for your inquiry regarding the COVID–19 Provider Relief Fund Reporting Activities Federal Register Notice. The "total estimated annualized burden hours" table represents total average burden hours for Provider Relief Fund (PRF) recipients (providers).	Addressed in previous response, in addition updated, data, portal enhancements and Post Payment Notice of Reporting Requirements October – 2022 and resources. Also See: https://www.hrsa.gov/provider-relief/reporting-auditing/reporting-resources and https://prfreporting.hrsa.gov/s/

- A copy of the draft instruments

There are various resources available online that outlines and thoroughly describes the report instrument. They can be found here under the resources section.

1. What type of documentation is being requested? Is data outside of the PRF Reporting portal being requested?

Documentation requested is outlined in the June 11 Post-Payment Notice of Reporting Requirements. There is no data collection outside the PRF Reporting Portal.

2. How will the information collected assist with conducting audits?

HRSA's audit strategies use data collected from the PRF report to assess and ensure compliance with payment Terms and Conditions.

3. Does the average

burden per response (in hours) represent the amount of time HRSA will review each respondent's PRF Report? Does this include potentials audits

The average burden per response represents the amount of time Provider Relief Fund recipients will need to complete and submit the report as required by the Terms and Conditions. These numbers take into account the amount of PRF funding received, hours required by size of funding and number of providers estimated to report by reporting period.

4. Will the information collected impact future PRF distributions for respondents?

At this time, we do not have information to share regarding any future PRF distributions.

5. Will the information collected in the first PRF Reporting Portal period be used or saved for the respondents' second PRF Reporting period?

HRSA is currently assessing and developing the report portal for the second PRF reporting period. Where possible, we will consider your suggestion to save previously entered provider data in the

				COVID-19 pandemic.	
				Included below is an	
				updated Frequently	
				Asked Question (FAQs)	
				that may be helpful to	
				reference.	
				How does a Reporting	
				Entity determine whether	
				an expense is eligible for	
				reimbursement through	

the Provider Relief Fund? (Modified 7/1/2021)

To be considered an allowable expense under the PRF, the expense must be used to prevent, prepare for, and respond to coronavirus. PRF payments may also be used for lost revenues attributable to the coronavirus. Reporting Entities are required to maintain adequate documentation to substantiate that these funds were used for health care-related expenses or lost revenues attributable to coronavirus and that those expenses or losses were not reimbursed from other sources and other sources were not obligated to reimburse them. Reporting Entities are not required to submit that documentation when reporting. Providers are required to maintain supporting documentation which demonstrates that costs were incurred during the Period of Availability. The Reporting Entity is responsible for ensuring that adequate documentation is maintained. See https://www.hrsa.gov/pro vider-relief/faq/reporting

As we refine our reporting strategy, please look for current, new, and updated resources including reporting requirements, FAQs, and

	opportunities for future funding, on HRSA's PRF webpage at www.hrsa.gov/provider- relief.

information in response to your request for comment on COVID-19 Provider Relief Fund Reporting Activities, OMB No. 0906-XXXX New.

- 1.) The data request would be significantly simplified by the following:
- a.) Information could be presented for the health system instead of entities receiving target funds being required to report, even if those funds are transferred to the Parent entity. Under the current requirements, Fairview Health Services was required to submit 7 registrations and will submit 13 reports over the three required reporting periods. b.) Expenses were not required to be reported before lost revenue when lost revenue alone would be sufficient to

your feedback and will continue to assess the burden on providers and where possible, streamline the reporting portal and eliminate any unnecessary burden.

As we continue to evaluate our processes and resources, feedback from you and other stakeholders informs our ability to administer the PRF in a manner that bolsters the health care system and helps providers experiencing COVID-related financial hardships during this crisis.

Please visit HHS's PRF webpage at https://www.hrsa.gov/pro vider-relief/ for frequently updated information, including reporting requirements, frequently asked questions, and opportunities for future funding.

support
utilization of the
grant award.
c.) Lost revenue
reporting would
be significantly
simplified if it
did not require
reporting by
payor category.
This information
is not available
out of our
accounting

transparency and proactive communication about the PRF.

You raise a number of important considerations related to the reporting requirements and data collection. At this time we are actively reviewing these considerations as we refine our reporting strategy and plans for additional guidance and resources.

Regarding your concern on the estimated burden hours, the average burden per response represents the amount of time Provider Relief Fund recipients will need to complete and submit the report as required by the Terms and Conditions. These calculations take into account averages in the amounts of PRF funding received, hours required by size of funding, and the number of providers estimated to report by reporting period. We appreciate your feedback and will continue to assess the burden on providers, including with any future distributions, and where possible, streamline the reporting portal and eliminate any unnecessary burden.

As we continue to evaluate our processes and resources, feedback from you and other stakeholders informs our ability to administer the

				PRF in a manner that	
				bolsters the health care	
				system and helps	
				providers experiencing	
				COVID-related financial	
				hardships during this	
				crisis.

Regarding your concern on the estimated burden hours, the average burden per response represents the amount of time Provider Relief Fund recipients will need to complete and submit the report as required by the Terms and Conditions. These calculations take into account averages in the amounts of PRF funding received, hours required by size of funding, and the number of providers estimated to report by reporting period. We appreciate your feedback and will continue to assess the burden on providers and where possible, streamline the reporting portal and eliminate any unnecessary burden.

As we continue to evaluate our processes and resources, feedback from you and other stakeholders informs our ability to administer the PRF in a manner that bolsters the health care system and helps providers experiencing COVID-related financial hardships during this crisis.

Please visit HHS's PRF webpage at https://www.hrsa.gov/provider-relief/ for frequently updated information, including reporting requirements, frequently asked questions, and

				opportunities for future funding.	
11/8/2021	Kara Webb, Chief Strategy Officer	American Optometric Association	Attached are comments on the HRSA submission to OMB for Review and Approval: COVID-19 Provider Relief Fund (PRF) Reporting Activities. Thank you for the opportunity to provide comment. HRSA PRF Burden Estimate.pdf	Thank you for your comments on the COVID-19 Provider Relief Fund (PRF) reporting activities as requested in the Federal Register on July 26, 2021. As we continue navigating this pandemic, the Health Resources and Services Administration (HRSA) appreciates opportunities for greater transparency and proactive communication about the PRF. Regarding your feedback on the estimated burden hours, the average burden per response represents the amount of time Provider Relief Fund recipients will need to complete and submit the report as required by the Terms and Conditions. These calculations take into account averages in the amounts of PRF funding received, hours required by size of funding, and the number of providers estimated to report by reporting period.
