

Public Burden Statement: The evaluation focuses on process and impact evaluation of all CoP Teams. The information collected will inform satisfaction measures (reaction), change in knowledge after the TA (learning), and change in behavior or practice after the introduction of evidence-based interventions (behavior). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this information collection is 0915/0906-XXXX and it is valid until 12/31/2026. This information collection is voluntary. Public reporting burden for this collection of information is estimated to average 0.47 hours per response, including the time for reviewing instructions, searching existing data sources, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to HRSA Reports Clearance Officer, 5600 Fishers Lane, Room 14N136B, Rockville, Maryland, 20857 or paperwork@hrsa.gov.

1. Pre-Conception Counseling Community of Practice Retrospective Pre-Post-Assessment Instrument

Instructions:

To measure the effectiveness of the Pre-conception Counseling Community of Practice (CoP), we invite you to complete this survey. Through this survey, we are gathering information on both your experience prior to the CoP as well as currently. As you complete the survey, you will notice that we ask you to respond to the questions by first thinking back to beginning of the CoP, and then again by thinking about your experience currently.

The survey will take about 28 minutes to complete.

Your identifying information and survey responses are confidential and will only be seen by the evaluation team. Individual responses will be combined with responses from all other survey participants for reporting purposes. Your honest responses will help us assess the effectiveness of the CoP learning sessions and understand how they may be improved.
