## **Participant Survey**

## (CMS-10728, OMB 0938-New)

# **Survey Introduction**

The Value in Opioid Use Disorder Treatment demonstration (Value in Treatment) participant survey provides CMS/CMMI with valuable insights on participant's implementation experience within the past [six months or performance year]. Specifically, it informs CMS of the interventions implemented, strategies used to implement them, and successes and challenges encountered during implementation. This survey takes approximately 20 minutes to complete.

Your participation in this survey is required as part of your Value in Treatment participation agreement. Please complete this survey within 15 days of receipt.

The survey may be completed in one session. Please save your responses offline in the event that your online responses were not saved as intended. All questions with an asterisk are required and must be answered in order to proceed to the next page.

To protect the privacy of your patients, please do not disclose any of their personal identification or health information when completing this survey. In the event that patients' identifiable information is inadvertently included on the survey, CMS/CMMI will remove that information from the survey and any subsequent reports. Additionally, any comments made by the individual completing this survey will not be attributed to them, nor will their responses be linked to them in CMS/CMMI's reports.

If you experience technical difficulties while using this survey platform, please email ValueinTreatment@cms.hhs.gov for assistance.

#### **Survey Questions**

# Section 1: Participant Information

1.	Enter your contact information (individual filling out the survey):
	Name:
	Email Address:
	Phone Number:
	Title/Position:
2.	Enter the single Tax-payer Identification Number (TIN) and single National Provider Identification (TIN) used by the participant for Value in Treatment billing purposes:
	Demo ID:
	TIN:
	NPI:
3.	In the past [six months or performance year], did the participant undergo any business changes (e.g., organization improvements, restructuring, operational change, business name change, etc.)?
	☐ Yes
	If ves. did it result in any Value in Treatment service disruptions? Please explain.

participant's opioid use disorder care team? Select all that apply.  Removed and replaced existing care team member(s) Removed existing care team member(s); no replacement needed Added new care team member(s) No changes  How would you rate your OUD care team's level of engagement in Value in Treatment (i.e., interest and participation in providing services to beneficiaries)?
