TITLE OF INFORMATION COLLECTION: Pyramid Model Feedback Survey

**PURPOSE:** The proposed information collection will be administered to participants of the National Center for Health, Behavioral Health, and Safety (NCHBHS) Pyramid Model Training. The Pyramid Model provides a framework for the implementation of practices that will promote the social and emotional competence of all young children including children who have persistent challenging behavior. The NCHBHS contracts with Pyramid Model trainers to provide training and technical assistance (TA) to programs and regional TA staff on the implementation of this model, preparing staff to implement practices that support children's social emotional development. This feedback survey will provide timely feedback from current participants in an efficient manner to improve future trainings. Responses to this survey will be used for internal planning and improvement of the service delivery. This is the sole source of satisfaction data to be collected from participants of the Pyramid Model Training. The survey will be delivered via the Qualtrics online survey platform.
