Child Interviews

Child interviews are a small group of children at one time. Child interviews are for the purposes of general information and general well-being and safety. Children have a right to refuse an interview. If this occurs, please document the reason the child refused an interview. This is not an investigation. This should not evolve into counseling. FFS and CFS are mandated reporters to CPS and law enforcement. Do not promise children anything. Do not discuss the child's legal case. Redirect issues that move away from the intent of this site visit report and encourage them to speak with their clinician/case manager or attorney/legal services provider. If you have any immediate safety concerns, please contact the FFS Supervisor.

UC may be interviewed as a small group at one time in an informal setting. If any child responds in the negative or "NO" then mark it as "NO" but you can add any comments.

27. Please note the number of children in the group interviewed *

Trends and Follow Up

Utilize the trends and follow up sections of the report for a record of your overall findings, reporting to your supervisor, and to check on the program's improvements from month to month, as well as have a record in the event a corrective action is required for identified trends.

This is the final section where you record your findings for the visit, and what you left in place for the program to follow up on. Share this with your supervisor, PO, and CFS. Also, it is fine to give it to your program so that when you go back to the program, you have a record of what has already been addressed and whether progress has been made.

Please feel free to engage your supervisor along the way should you have questions or need support with anything. Remember that this visit and form is a tool for you to use to help the programs improve. Lastly, remember you are a mandated reporter to CPS and law enforcement. For any immediate safety concerns or findings, contact your supervisor.

65. **Trends/Comments:** Please provide a narrative discussion of your main findings and areas of potential concern. *

66. Did you identify any potential issues to monitor or for additional follow up? *

Yes

No

67. If yes, list any specific issues that need to be reviewed again during the next site visit?

68. **Follow up:** Please list any follow up conducted on any previous concerns (Corrective Actions, SA/SIRs, Emergency SIRs, Notice of Concern from PRS provider, any outcomes or issues from a previous site visit by the FFS, CFS, or Monitoring Team) *

69. **Action Items:** Please list any plans to address newly identified or remaining concerns. Please include who you have notified if you are not the responsible party for follow up or the next site visit. *

THE PAPERWORK REDUCTION ACT OF 1995 (Pub. L. 104-13) STATEMENT OF PUBLIC BURDEN: The purpose of this information collection is to allow ORR Federal Field Specialists to document site visit observations and interview responses. Public reporting burden for this collection of information is estimated to average 1.0 hour per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. This is a mandatory collection of information (Homeland Security Act, 6 U.S.C. 279). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information subject to the requirements of the Paperwork Reduction Act of 1995, unless it displays a currently valid OMB control number. The OMB control number is 0970-0564 and the expiration date is MM/DD/2026. If you have any comments on this collection of information please contact UCPolicy@acf.hhs.gov.
