

THE PAPERWORK REDUCTION ACT OF 1995 (Pub. L. 104-13) STATEMENT OF PUBLIC BURDEN: The purpose of this information collection is to monitor to document care provider compliance with ORR policies and procedures related to case file maintenance during quarterly site visits. The burden for this collection of information is estimated to average 1 hour per response for the care provider and 6 hours per response for the reviewer, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection of information. This information collection (Homeland Security Act, 6 U.S.C. 279). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information subject to the requirements of the Paperwork Reduction Act of 1995, unless it displays a currently valid OMB control number. If you have any comments on this collection of information please contact UCPolicy@acf.hhs.gov.

Unlicensed Facility UC Case File Checklist

UPDATED UC CASE FILE CHECKLIST: DIRECTIONS

This revised case file checklist uses formulas to provide summary information in the "**UC_CL_Summary**" tab, based on the data in the tabs that you review (i.e., the tabs titled "**UC_CL_#**"). A few important things to know across the "**UC_CL_Summary**" and "**UC_CL_#**" tabs:

- Each individual case has its own tab (i.e., "**UC_CL_#**") within this overall Excel spreadsheet.
- Instead of checkboxes, the rows of the case file checklist now have a dropdown menu. The dropdown options are:
 - **Present, compliant:** The document is in the case file/UC Portal, and there are no issues with it. The document is completed on time, is fully filled out, etc.
 - **Present, noncompliant:** The document is in the case file/UC Portal, but there is at least one issue with it. The document was completed late, or it is missing a signature.
 - **Not present:** The document is supposed to be in the case file/UC Portal, but is missing.
 - **N/A:** The document is not applicable for this case. For example, the document is supposed to be completed every day in care, but the UC was only in care for 15 days.
 - **Not reviewed:** You have not yet reviewed the case file/portal to see if the document is present and complete.

NOTE: This is the default choice selected for each cell with the drop-down menu; please update the response for each cell.

- Use your professional judgement when deciding how to categorize each file.
- We recognize that these categories don't work perfectly for every row. Do your best when this is the case, and your input will remain consistent across each file you review.
- The cells in this tab are not editable. For both unlocked and locked cells, you can modify the width/height/area of a cell by pulling the row/column handles to the desired location.

To ensure the Excel file continues to function correctly, **do not:**

- Change the name of any tabs in this file
- Add or delete any rows or columns

In the "**UC Services**" tab, be aware of the following points:

- This tab is optional to complete.
- Per UC case file that you review, input each service that a UC received/attended, all in this tab. For example:
 - If UC #1 received/attended 10 Individual Clinical services, you'd input information / data into the first 10 rows of the Individual Clinical Service from the Service column's drop-down menu.
 - If UC #2 received/attended 12 services for Case Management, you'd input information / data into the next 12 rows of Case Management from the Service column's drop-down menu.
 - If UC #3 received/attended 8 services (2 for Individual Clinical Services and 6 for Case Management), you'd input information / data into the first 2 rows of Individual Clinical Service and the next 6 rows of Case Management from the Service column's drop-down menu.

- Input information / data for the two individual clinical services into the next two rows and select Individual Clinical Service from the Service column's drop-down menu.
- Input information / data for the six case management services into the next six rows and select Case Management from the Service column's drop-down menu.
- Per UC case file that you review, input the number that corresponds to the tab of the UC case file in each row (in the first column of this tab. For example, since UC #1 above received 10 services, you'd input "1" into the first column of each of the 10 rows for UC #1.
- In this tab, you will only be able to input information / data into, as well as expand, cells that require those inputs (and columns/rows), you will not be able to edit (or insert) them at all.

The UC Case File Checklist has items that are personally identifiable information (PII)* and sensitive PII**. To be consistent with our Privacy Policies, please note the following requirements:

- **E-mailing UC Case File Checklists (draft and final versions) with only PII**
 - Enable password-protection on the checklists.
- **E-mailing UC Case File Checklists (draft and final versions) with sensitive PII**
 - Enable password-protection on the checklists and encrypt the e-mails.
- **UC Case File Checklists (draft and final versions) with sensitive PII on the S drive**
 - Enable password-protection on the checklists (and any accompanying files with sensitive PII) at all times.
- **UC Case File Checklists (draft and final versions) on MS Teams**
 - UC Case File Checklists on MS Teams **with sensitive PII**:
 - First create a private Team space to limit staff who can access the checklist and then encrypt the file accordingly.* Try to limit sensitive PII found in the checklist on MS Teams. When you move the checklist to the S drive, ensure the checklists have encryption/password-protection enabled.
 - * Note: file encryption on MS Teams might restrict multiple team members working on the file at once.
 - UC Case File Checklists on MS Teams **without sensitive PII**:
 - First create a private Team space to limit staff who can access the checklist and then work in the checklist normally would. You might have corresponding file(s) with the sensitive PII noted for reference as you work on the checklists; please also password-protect any corresponding files. When you are ready to save the final checklists to the S drive, include the sensitive PII in the checklists and ensure the checklists have encryption/password-protection enabled.

* **PII** is "information that can be used to distinguish or trace an individual's identity, either alone or when combined with other information that is linked or linkable to a specific individual." Examples of PII include name, phone number, email address, Social Security number, as well as information that is personally identifiable when linked with other information such as, in combination with place of employment.

** **Sensitive PII** includes (but is not limited to) the following examples:

- A# (by itself or in combination with other PII)
- Date of birth in combination with other identifiable information (such as name, passport number, phone number, etc.)
- Citizenship or immigration status in combination with other identifiable information (such as name, passport number, etc.)
- Passport number in combination with other identifiable information (such as name, phone number, etc.)
- Sexual orientation in combination with other identifiable information (such as name, passport number, phone number, etc.)
- Criminal history in combination with other identifiable information (such as name, passport number, phone number, etc.)
- Current or previous personal contact information (such as home address, personal phone number, personal e-mail address) in combination with other identifiable information (such as name, passport number, etc.)

Contact the Monitoring 2.0 Team if you:

- Have any issues using the checklist
- Have any recommendations for additional changes
- Need additional tabs added to the file so that you can review more than 10 files from the same monitoring visit.
