

COVID-19 Attitudes and Beliefs Survey (CABS)

COVID-19 Attitudes and Beliefs Survey (CABS)

Welcome

// Display OMB number and exp in the bottom right off all screens //

OMB No. 0990-0475
Exp. Date 02/29/2024

You have been selected to participate in a national survey about COVID-19. The purpose of this survey is to help better understand U.S. adults' experience, opinions, behaviors, and their trusted information sources related to COVID-19. You will receive 18,000 AmeriPoints, or \$18, to complete this survey, which will take about 35-minutes to complete. If you complete this survey, you may also be invited to take follow-up surveys on this topic up to two additional times over the next year, each with an incentive of 18,000 AmeriPoints. You may also be invited to complete additional follow-up surveys on this topic in the future, for which you will also be compensated. **Importantly, you must complete each of these surveys in order to be invited to the next one.**

This survey will provide important feedback on six main topics, including:

- Your interests and intentions about the recommended actions advised by health officials
- Your opinions on COVID-19
- Views on science, research, and medical professionals
- Public health education campaigns
- How COVID-19 has impacted your life
- More about you and other health conditions

You will be shown a privacy statement and additional information about the purpose of this survey and how your survey responses will be used. You will then be asked for your consent to proceed with the survey.

HHS COVID-19 PUBLIC EDUCATION CAMPAIGN

A campaign to increase vaccine confidence and awareness about treatments while reinforcing basic prevention measures.

For questions or concerns about this survey, email: support@amerispeak.org

Privacy Advisory

This survey does *not* collect or use personally identifiable information (PII) such as your name, date of birth, or contact information. As with all AmeriSpeak surveys, responding to this survey is voluntary. Your responses will be treated as private to the extent allowable by law and will be maintained in a secure data set. There is no penalty to you if you choose not to respond. However, we encourage you to answer all questions so that the data will be complete and will represent the typical attitudes and beliefs of all Americans.

Frequently Asked Questions (FAQ)

// FAQs should link to their corresponding page positions below. "TOP" buttons should link back to top of FAQ //

[Why is this study being conducted?](#)

[Why should I participate?](#)

[Do I have to answer all questions?](#)

[Can I save my answers and return to the survey later?](#)

[Will my answers be kept private?](#)

[Can I withdraw answers once I have started the survey?](#)

[What are the costs and benefits of participating?](#)

[How will my responses be used?](#)

[Will I see the results of the survey?](#)

[Why is this study being conducted?](#) [Top](#)

- This study is being conducted to understand changes over time of people's opinions of, experience with, and behaviors related to COVID-19 as well as exposure to and trust of sources on COVID-19 information.

[Why should I participate?](#) [Top](#)

- By participating in this survey, you will contribute to fighting the spread of COVID-19. You may also learn more about COVID-19 and ways you can help slow the spread of COVID-19 as a result of information you learn by taking part in this survey.

HHS COVID-19 PUBLIC EDUCATION CAMPAIGN

A campaign to increase vaccine confidence and awareness about treatments while reinforcing basic prevention measures.

Do I have to answer all questions? [Top](#)

- No, as with all AmeriSpeak surveys, it is not necessary to answer every question. Your participation in this study is completely voluntary. This means that you are free to withdraw from this survey at any time or to skip any questions. There is no penalty to you if you choose not to respond.
- Some questions in this survey will ask about your personal experiences with COVID-19, and you have the right to skip these questions. Additionally, if you experience any distress while taking this survey, you may contact (1) the Substance Abuse and Mental Health Services Administration (SAMHSA) Disaster Distress Helpline (1-800-985-5990) or (2) the Suicide Prevention Lifeline (1-800-273-8255), which both offer free 24/7 support services.
- At the bottom of your survey screen, you have two control buttons: *Continue* (>>), and *Previous* (<<). Use these buttons to navigate through the survey or to skip questions.

Can I save my answers and return to the survey later? [Top](#)

- Yes. If you exit the survey, your progress will be saved. To return to the survey, use the same survey link provided to you. When you return to the survey website, you will be directed to the place in the survey where you had stopped. Use the control buttons, *Continue*, and *Previous*, to navigate through the survey to return to unanswered questions.

Will my answers be kept private? [Top](#)

- As with all AmeriSpeak surveys, responses will remain private to the extent allowable by law. None of the information you provide will be used to contact you, or will be used in future research or distributed to another investigator for future studies. Survey responses will be aggregated (combined), and only group statistics will be reported. You will not be identified even if the results of this study are published.

Can I withdraw answers once I have started the survey? [Top](#)

- If you wish to withdraw your answers, please notify the survey help desk by sending an email to support@amerispeak.org.

What are the costs and benefits of participating? [Top](#)

- There is no cost to you for participating in this study.
- This study is for research purposes only. There is no direct benefit to you for taking part in this study. Any compensation you receive is a small token to thank you for participating, if you choose to do so.
- If you decide to participate, you will receive \$18 for this survey and \$18 each for any future surveys.

HHS COVID-19 PUBLIC EDUCATION CAMPAIGN

A campaign to increase vaccine confidence and awareness about treatments while reinforcing basic prevention measures.

How will my responses be used? [Top](#)

- Your responses will be used to inform a public education campaign on scientifically proven behaviors on how to decrease COVID-19 infection rates. This is your chance to be heard on issues that directly affect you. Although your survey responses will be kept confidential, summarized responses may be released to the public.

Will I see the results of the survey? [Top](#)

- Results from this study might appear in professional journals or scientific conferences or might be submitted in a report to Congress. No individual participants will be identified or linked to the results. We will not disclose your identity in any report or presentation.

Section 1: Your Interest and Intentions About the Actions Recommended by Health Officials

COVID-19 Vaccines

The following questions will ask about your actions and beliefs about initial COVID-19 vaccines, boosters, and updated vaccine doses. **Initial COVID-19 vaccines** refer to the initial series of doses (i.e., 1 dose of J&J, 2 doses of Pfizer, Moderna, or Novavax). **Boosters** refer to an additional 1 or 2 doses you may have received after your initial COVID-19 vaccines. Boosters were available from August 2021 to the end of August 2022. **Updated vaccines for COVID-19** refer to COVID-19 vaccines reformulated to better target Omicron variants, sometimes called “updated boosters” or “bivalent boosters.” Updated vaccines became available in September 2022.

Initial COVID-19 vaccines for Novavax and Johnson remain available, but individuals ages 6 and older are otherwise recommended to receive an updated vaccine(s) for COVID-19.

Throughout this section, questions will refer to a specific type of COVID-19 vaccine dose (initial, booster, updated). Please answer with regards to the type of COVID-19 vaccine dose being referenced.

Item #: BEH1a

Question type: Single punch

Variable Name: BEH1a

Variable Text: Have you received an initial COVID-19 vaccine?

Variable Label: BEH1a: Vaccination uptake

Value	Value Label
0	No, I have not received an initial COVID-19 vaccine.
1	Yes, I have received at least one dose of an initial COVID-19 vaccine.
99	REFUSED

HHS COVID-19 PUBLIC EDUCATION CAMPAIGN

A campaign to increase vaccine confidence and awareness about treatments while reinforcing basic prevention measures.

Item #: BEH1b

Question type: Single punch

Variable Name: BEH1b

Variable Text: Did you receive an initial COVID-19 vaccine that requires one (i.e., Johnson & Johnson) or two (i.e., Pfizer, Moderna, Novavax) doses?

Variable Label: BEH1b: Type of vaccine

// Ask if BEH1a (BEH1a: Vaccination behavior_V2) = 1 ("Yes, I have received at least one dose...") //

Value	Value Label
1	I received an initial COVID-19 vaccine that requires one dose
2	I received an initial COVID-19 vaccine that requires two doses
77	Don't know
99	REFUSED
100	VALID SKIP

Item #: BEH1c

Question type: Single punch

Variable Name: BEH1c

Variable Text: How many total COVID-19 doses have you received? *Please include all doses from your initial vaccine series and any additional COVID-19 vaccine or booster doses when answering this question.*

Variable Label: BEH1c: Number of doses

// Ask if BEH1a (BEH1a: Vaccination behavior_V2) = 1 ("Yes, I have received at least one dose...") //

Value	Value Label
1	1 dose
2	2 doses
3	3 doses
4	4 doses
5	5 doses
6	Other [Open-ended, numeric values >6 only]

Your Children and COVID-19 Vaccines

The following questions will ask about your child or children and COVID-19 vaccines. To date, the U.S. Food and Drug Administration (FDA) has authorized several vaccines that protect against COVID-19 for adults and children ages 6 months and older. We want to learn more about your vaccination plans for your children to better understand vaccination plans among all Americans. We will not ask for any identifying information about your children, such as their names or dates of birth.

[IF ANY CHILD_AGE_x =0-17, -99]
