

As part of the COVID-19 Public Education Campaign market research efforts, the Current Events Tracker (CET) is a flexible survey vehicle designed for easy addition or removal of questions as applicable to the current environment. In this round, we retain most of the previous iteration's questions with wording tweaks to align with CDC guidance, add January, 2022 where applicable, and to remove references to the holidays. Three new questions relate to eligible child booster uptake, holiday experience with COVID, and parents' concerns regarding in-person schooling.
