

# ASPA COVID-19 PUBLIC EDUCATION CAMPAIGN

A campaign to increase vaccine acceptance and reinforce basic prevention measures

## CET – Annotated Questionnaire (Wave 80)

Note: The questions below are the proposed questions for the 80<sup>th</sup> wave of the Weekly Current Events Tracker (CET). Questions highlighted in yellow will be asked every week; questions highlighted in blue will be rotated into the survey on a monthly basis; and questions highlighted in green are meant to be asked in this wave only or are being asked again to update data on a variable of interest.

For the next section we would like to talk about current events.

// Page Break //

//BASE: beh1\_cet\_r=2//

Item #: Q7

Question Type: Single punch grid

// Soft Prompt: "We would like your response to this question." //

**boosterf\_uptake7:** U.S. health officials and medical experts now recommend additional COVID-19 doses after the initial vaccine series (two doses of Pfizer, Moderna, or Novavax; or one dose of Johnson & Johnson).

Boosters are additional doses you may have received after your initial series. Boosters were available from August 2021 to the end of August 2022.

Updated vaccines are COVID-19 vaccines reformulated to better target Omicron variants, sometimes called "updated boosters" or "bivalent boosters." Updated vaccines became available in early September 2022.

Have you received a COVID-19 vaccine booster or updated vaccine?

| Variable Name     | Variable Text                                                                   | Variable Label                                         |
|-------------------|---------------------------------------------------------------------------------|--------------------------------------------------------|
| booster_uptake7_0 | I have not received a COVID-19 booster or updated vaccine                       | booster_uptake7_0: Neither booster nor updated vaccine |
| booster_uptake7_1 | I have received one or more booster dose(s) (available August 2021-August 2022) | booster_uptake7_1: Booster                             |
| booster_uptake7_2 | I have received an updated vaccine (available starting September 2022)          | booster_uptake7_2: Updated vaccine                     |

| Value | Value Label |
|-------|-------------|
| 0     | No          |
| 1     | Yes         |
| -99   | Refused     |
| -100  | Valid skip  |

Item #: **Q19**

Question Type: Single punch grid

**// Soft Prompt: "We would like your response to this question."//**

**boost\_update\_perc2\_2:** The FDA recently authorized updated COVID-19 vaccines for people ages 12 and older who have received their initial vaccine series. Thinking about updated COVID-19 vaccines, how much do you agree or disagree with the following statements?

**//PROGRAMMING NOTE: randomize variables in grid//**

| Variable Name        | Variable Text                                                                                       | Variable Label                                  |
|----------------------|-----------------------------------------------------------------------------------------------------|-------------------------------------------------|
| boost_update_perc2_1 | Updating COVID-19 vaccines annually like flu vaccines makes sense.                                  | boost_update_perc2_1: Annual update makes sense |
| boost_update_perc2_2 | I trust the FDA would only authorize the updated COVID-19 vaccines if they were safe and effective. | boost_update_perc2_2: Trust FDA                 |
| boost_update_perc2_3 | I am confident that the updated COVID-19 vaccines are safe.                                         | boost_update_perc2_3: Confident safe            |
| boost_update_perc2_4 | I am confident that the updated COVID-19 vaccines are effective.                                    | boost_update_perc2_4: Confident effective       |
| boost_update_perc2_5 | I am confident in the testing that was done before the updated COVID-19 vaccine was authorized.     | boost_update_perc2_5: Confident in testing      |
| boost_update_perc2_6 | A single annual COVID-19 vaccine should provide a high degree of protection                         | boost_update_perc2_6: Year-long protection      |

|                      |                                                                                             |                                       |
|----------------------|---------------------------------------------------------------------------------------------|---------------------------------------|
|                      | against serious illness all year.                                                           |                                       |
| boost_update_perc2_7 | I think an updated COVID-19 vaccine is necessary to protect me against the Omicron variant. | boost_update_perc2_7: Omicron variant |

| Value | Value Label                |
|-------|----------------------------|
| 1     | Strongly disagree          |
| 2     | Somewhat disagree          |
