

**Appendix XX:
Federal Independent Dispute Resolution (IDR) Registry Data Elements**

The Departments of the Treasury, Labor, and Health and Human Services (Departments) and the Office of Personnel Management (OPM) have issued regulations that implement provisions of the No Surprises Act, including rules to establish a Federal independent dispute resolution process (Federal IDR process) that nonparticipating providers or facilities, nonparticipating providers of air ambulance services, and group health plans, health insurance issuers offering group or individual health insurance coverage, or Federal Employees Health Benefits (FEHB) Program carriers may use following the end of an unsuccessful open negotiation period to determine the out-of-network rate for certain items and services. More specifically, the Federal IDR process may be used to determine the out-of-network rate for emergency items and services furnished by nonparticipating providers or facilities, nonemergency items and services furnished by nonparticipating providers at participating health care facilities, and for air ambulance services furnished by nonparticipating providers of air ambulance services where an All-Payer Model Agreement or specified state law does not apply.

The Departments and OPM have issued proposed rules that would require each group health plan and health insurance issuer offering group or individual health insurance coverage and each FEHB carrier offering a FEHB plan subject to the Federal IDR process to register with the Federal IDR registry as specified by the Departments in guidance. Initial registration would be completed by the later of the date that is 30 business days after the effective date of the final rule and the date that is 30 business days after the registry becomes available, or the date the group health plan or health insurance issuer begins offering a group health plan or group or individual health insurance coverage subject to the Federal IDR process. FEHB carriers will register pursuant to 5 CFR 890.114, OPM contract, or OPM guidance.

The table below identifies data elements under the proposed rule that group health plans and health insurance issuers offering group or individual health insurance coverage and FEHB carriers offering FEHB plans subject to the Federal IDR process would be required to provide to the Departments in order to complete registration.
