

DEPARTMENT OF HOMELAND SECURITY
 Transportation Security Administration

PRACTICAL EXERCISE PERFORMANCE REQUIREMENTS

INSTRUCTIONS: Your patient is undergoing evaluation by the Federal Air Marshal Service Medical Program pursuant to either an application for employment or determination of fitness for duty. We request that you complete this form to assist us in our evaluation. Unless directed by the FAMS Medical Programs Section, this form may be completed by an Advanced Practice Registered Nurse (APRN). For purposes of this examination, please do not include any genetic information, including family medical history or the results of any genetic testing, with any medical records/ documentation you provide. **NOTE TO MEDICAL EXAMINER:** Please do not collect any genetic information provided by the examinee. Practical Exercise Performance Requirements (PEPR) are physical activities related to law enforcement tasks, e.g., conducting searches and making arrests. Please delineate if your patient is able to (Yes) or is unable to (No) perform the following tasks. N/A may be used if a localizing condition does not affect this ability.

Section I. Healthcare Provider's Evaluation			
Essential Job Tasks and Performance Requirements	Yes	No	N/A
1. Lift/Carry			
Without assistance, lift and carry individual (e.g., subject) resisting arrest to another area or out of aircraft.			
Lift baggage into or out of aircraft overhead compartment.			
Without assistance, lift and carry objects weighing 30 to 50 lbs. (baggage).			
Remove aircraft emergency egress window (e.g., 50 lb.) or open aircraft door(s).			
2. Push/Pull			
Without assistance, pull/drag uncooperative individuals (e.g., subject) 5-150 feet during an arrest situation.			
Without assistance, physically restrain or subdue a resistive individual (e.g., subject, mentally ill individual, drugged person) using reasonable force.			
Defend oneself against attack and protect weapon from a seated position. (e.g., grappling punching/kicking).			
Without assistance, use bodily force (e.g., body, foot) to gain entry through a locked door (e.g., lavatory door).			
3. Climb			
Climb over seats, galley carts, or passengers lying down in the aisle during emergency or close combat situations.			
4. Quick Movements			
Quickly get out of aircraft seat in response to an emergency or to pursue subject.			
Block and evade blows, punches, kicks, etc., with arms, hands or legs.			
Perform counter measures to disarm subject with gun.			
5. Bends/Stoop/Reach			
Stoop/Squat to inspect or search for objects or evidence under aircraft seats, in lavatory, and in galley.			
Reach overhead to open and search overhead bins.			
6. Stand			
Stand for one hour or more.			
7. Run			
Run in aircraft in pursuit of subject or to quickly respond to an incident scene.			
Physically restrain a subject after running.			
8. Sit			
Sit for one hour or more in an aircraft.			
9. Firearms			
Load and unload assigned handgun.			
10. Operate Hand Controls			
Operate flight deck controls and/or instrumentation to stabilize an aircraft in flight.			

WARNING: This document may contain Privacy Act protected or other sensitive information and should be protected from unauthorized disclosure. TSA employees and contractors may share this information within DHS on a need-to-know basis. Disclosure outside of DHS must be approved by the Office of Chief Counsel or TSA Privacy Office.

PAPERWORK REDUCTION ACT STATEMENT OF PUBLIC BURDEN: TSA is collecting this information about you to determine your suitability to serve as a Federal Air Marshal. This is a voluntary collection of information; however, failure to furnish the requested information may result in an inability to consider you for a position as a Federal Air Marshal. TSA estimates that the total average burden per response associated with this collection is approximately one hour (or 15 minutes if not submitting an explanation). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The control number assigned to this collection is OMB 1652-0043, which expires 07/31/2023. Send comments regarding this burden estimate or collection to: TSA-11, Attention: PRA 1652-0043, Law Enforcement/Federal Air Marshal Service, Physical Mental Health Certification, 6595 Springfield Center Drive, Springfield, VA 20598-6045 or TSAPRA@tsa.dhs.gov.

Section I. Healthcare Provider's Evaluation (cont'd)			
Essential Job Tasks and Performance Requirements	Yes	No	N/A
11. Write			
Complete reports consisting of short descriptive phrases and/or fills in the blanks.			
Complete narrative reports.			
12. Read			
Read reports consisting of short, descriptive phrases.			
Read operations orders and intelligence briefings to determine mission specific requirements.			
Read information displayed on computer screens.			
13. Comprehension/Cognitive Skills			
Survey incident scene and quickly gather information to immediately determine appropriate course of action (e.g., intervene, draw weapon).			
Identify individuals known to pose, or suspected of posing a risk of terrorism or a threat to airline or passenger safety.			
Determine whether a situation requires verbal de-escalation or use of force.			
Make an instantaneous decision whether to use physical or deadly force in aircraft or ground situations.			
Prioritize the required actions at an incident.			
Adapt and adjust plans in response to changes in circumstances during an incident, arrest, or seizure of evidence.			
Maintain appropriate confidentiality of non-public information about people investigations, etc.			
Detect smells that should be investigated and approximate their origin (e.g., narcotics, smoke, gas, alcohol).			
Assist in emergency evacuations from aircraft.			
14. Calculate/Communicate			
Perform simple arithmetic calculations.			
Issue quick, clear and forceful directions to subjects and passengers in an emergency or other situation.			
Diffuse arguments (e.g., domestic, other arguments) by using verbal de-escalation techniques.			
Communicate description of individuals, explosive devices, or incidents under stressful conditions.			
15. Training			
Fire 200-500 rounds with assigned firearm at target during practice from standing, kneeling, squatting, prone, moving and behind barricade positions.			
Practice close quarter countermeasure weapons skills in simulated aircraft during training.			
Participate in physical fitness training such as running, weight training, elliptical trainer, push ups, and other aerobic and training exercise.			
Practice defensive tactics maneuvers. (e.g., grappling, striking and restraint techniques).			
Maintain proficiency in use of required safety equipment on aircraft (e.g., fire extinguisher, seat extraction tool, oxygen bottle).			
16. Flight			
Tolerate pressure changes related to multiple, daily ascents/descents in a commercial aircraft.			
Section II. Signatures			
It is my medical opinion that		is limited by the physical restrictions identified in the "NO" column.	
Anticipated length of restriction:			
Healthcare Provider's Printed Name:		Healthcare Provider's Specialty:	
Healthcare Provider's Signature:		Date of Signature:	
Office Address:		Office Phone Number:
