

Assistance, Appeals, and Requests for Cost Share Adjustments.

Type of Information Collection: Revision of a currently approved information collection.

OMB Number: 1660-0009.

FEMA Forms: FEMA Form FF-104-FY-22-232 (formerly 010-0-13), Request for Presidential Disaster Declaration Major Disaster or Emergency.

Abstract: When a disaster occurs, the Governor of the state or the Chief Executive of an affected Indian Tribal government may request a major disaster declaration or an emergency declaration. The Governor or Chief Executive should submit the request to the President through the appropriate Regional Administrator to ensure prompt acknowledgement and processing. The information obtained by joint Federal, state, and local preliminary damage assessments will be analyzed by FEMA regional senior level staff. The regional summary and the regional analysis and recommendation will include a discussion of state and local resources and capabilities, and other assistance available to meet the disaster related needs. The FEMA Administrator provides a recommendation to the President and also provides a copy of the Governor's or Chief Executive's request. In the event the information required by law is not contained in the request, the Governor's or Chief Executive's request cannot be processed and forwarded to the White House. In the event the Governor's request for a major disaster declaration or an emergency declaration is not granted, the Governor or Chief Executive may appeal the decision.

Affected Public: State, local or Tribal governments.

Estimated Number of Respondents: 140.

Estimated Number of Responses: 240.

Estimated Total Annual Burden

Hours: 4,040.

Estimated Total Annual Cost:

\$208,218.

Estimated Respondents' Operation and Maintenance Costs: \$0.

Estimated Respondents' Capital and Start-Up Costs: \$0.

Estimated Total Annual Cost to the Federal Government: \$9,193,769.

Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the

accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Millicent Brown Wilson,

Records Management Branch Chief, Office of the Chief Administrative Officer, Mission Support, Federal Emergency Management Agency, Department of Homeland Security.

BILLING CODE 9111-24-P

DEPARTMENT OF HOMELAND SECURITY

[Docket No. CISA-2023-0003]

Agency Information Collection Activities: .gov Registrar

AGENCY: Cybersecurity and Infrastructure Security Agency (CISA), Department of Homeland Security (DHS).

ACTION: 60-Day notice and request for comments; new collection (request for a new OMB control number).

SUMMARY: The .gov Registry Program within the Cybersecurity and Infrastructure Security Agency will submit the following Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995.

DATES: Comments are encouraged and will be accepted until *April 28, 2023*.

ADDRESSES: You may submit comments, identified by docket number Docket # CISA-2023-0003, at:

○ *Federal eRulemaking Portal:* <http://www.regulations.gov>. Please follow the instructions for submitting comments.

Instructions: All submissions received must include the agency name and docket number Docket # CISA-2023-0003. All comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided.

Docket: For access to the docket to read background documents or comments received, go to <http://www.regulations.gov>.

SUPPLEMENTARY INFORMATION: .gov is a 'top-level domain' (TLD), similar to .com, .org, or .us. Enterprises use a TLD to register a "domain name" (often simply called a domain) for use in their online services, like a website or email. Well-known .gov domains include *whitehouse.gov*, *congress.gov*, or *uscourts.gov*, but most .gov domains are from non-federal governments like *ny.gov* (State of New York) or *lacounty.gov* (LA County).

.gov is only available to bona fide U.S.-based government organizations and publicly controlled entities. When governments use .gov, they make it harder for would-be impostors to successfully impersonate them online.

Under the DOTGOV Act of 2020 (6 U.S.C. 665), CISA is responsible for the operation and security of the .gov TLD. Pursuant to that law, the .gov program at CISA works to "provide simple and secure registration of .gov internet domains", "ensure that domains are registered and maintained only by authorized individuals", and "minimize the risk of .gov internet domains whose names could mislead or confuse users". In order to provision .gov domains to eligible government entities and ensure adherence to the domain requirements published by CISA pursuant to 6 U.S.C. 665(c), CISA needs to collect information from requestors of .gov domains.

The information will be collected on an online web portal called the ".gov registrar", which is built and maintained by CISA. Requestors will be asked to provide information on the characteristics of their government entity (e.g., name, type, physical location, current domain), their preferred .gov domain name (e.g., *example.gov*), their rationale for the name, organizational contact information (names, phone numbers, email addresses), and nameserver addresses.

Only U.S.-based government organizations are eligible for .gov domains; some of these organizations may be small entities. The collection has been developed to request only the information needed to confirm eligibility and adjudicate a .gov domain request.

Without this collection, CISA will be unable to assess the eligibility of requestors nor provision .gov domains to government organizations. That outcome would decrease cybersecurity for governments across the nation and minimize the public's ability to identify governments online.

In accordance with 6 U.S.C. 665(c)(4), CISA will "limit the sharing or use of any information" obtained through this

collection “with any other Department component or any other agency for any purpose other than the administration of the .gov internet domain, the services described in subsection (e), and the requirements for establishing a .gov inventory described in subsection (h).” Certain metadata for any approved domains (domain name, organization name, nameserver address, city/state information, security contact) will be published online.

This is a new collection.

The Office of Management and Budget is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.

Analysis

Agency: Cybersecurity and Infrastructure Security Agency (CISA), Department of Homeland Security (DHS).

Title: .gov registrar.

OMB Number: OMB CONTROL NUMBER.

Frequency: Once per domain registered.

Affected Public: Employees representing state, local, territorial, and tribal governments.

Number of Respondents: 1,500 per year.

Estimated Time per Respondent: 20 minutes.

Total Burden Hours: 500 hours.

Robert J. Costello,

Chief Information Officer, Department of Homeland Security, Cybersecurity and Infrastructure Security Agency.

BILLING CODE 9110–9P–P

DEPARTMENT OF THE INTERIOR

Geological Survey

[GX23EN05ES90000; OMB Control Number 1028–NEW]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Evaluation of the Arctic Rivers Project

AGENCY: U.S. Geological Survey, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA), the U.S. Geological Survey (USGS) is proposing a new information collection.

DATES: Interested persons are invited to submit comments on or before March 29, 2023.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. You may also submit comments by mail to U.S. Geological Survey, Information Collections Officer, 12201 Sunrise Valley Drive MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028–NEW in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this Information Collection Request (ICR), contact Ryan Toohey by email to rtoohey@usgs.gov or by telephone at 907–865–7802. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: In accordance with the PRA and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also

helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on June 6, 2022 (87 FR 34288). No comments were received.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How the agency might minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: We will collect information from stakeholders of the Arctic Rivers Project, which include representatives of Indigenous communities in Alaska, representatives of Indigenous organizations, and others regarding the effectiveness of participatory methods and the achievement of overall project goals. Evaluation information will be collected via semi-structured interviews, surveys, and polls. Questions will focus on the relevancy of the project to participants, methods used to engage with participants, feedback about project components, input for the direction of the project, preferred communication methods, and
