

On January 18, 2022, the Department convened a negotiated rulemaking committee, the Institutional and Programmatic Eligibility Committee, to consider proposed regulations for the Federal Student Aid programs authorized under title IV of the Higher Education Act of 1965, as amended, (HEA). Through the Notice of Proposed Rulemaking (NPRM), docket number ED-2022-OPE-0062, the Secretary proposes new regulations to promote transparency, competence, stability, and effective outcomes for students in the provision of postsecondary education.

The NPRM proposes, under new § 668.407, to require current and prospective students to acknowledge having seen the information on the disclosure website maintained by the Secretary if an eligible non-Gainful Employment (non-GE) program has failed the debt-to-earnings (D/E) measure, to specify the content and delivery of such acknowledgments, and to require that students must provide the acknowledgment before the institution may disburse any title IV, HEA funds.

This is a request for a new collection.

The proposed changes in § 668.407 (a)(1) would require institutions to direct prospective and students enrolled in the non-GE programs that failed the D/E rates for the year in which the D/E rates were most recently calculated by the Department to the Department's disclosure website.

We estimate that it would take the 401,600 students 10 minutes to read the notice and go to the disclosure web site to acknowledge receiving the information for a total of hours (401,600 students x .17 hours = 68,272).
