PISA 2025 Field Test Questionnaires -Draft US Adaptations

OMB# 1850-0755 v.28

National Center for Education Statistics (NCES) U.S. Department of Education Institute of Education Sciences Washington, DC

July 2023

Proposed adaptations to PISA 2025 international source questionnaires

The final national field trial questionnaires for the United States are not currently available and will be provided in the updated package in December 2023. The international translation and adaptation activities have begun for the PISA 2025 round. This package provides the current U.S. versions of the questionnaires. There are three general types of adaptations:

1. Deleting items that are problematic to field in the U.S. or which are not germane to the U.S. data collection. Examples of deleted questions from previous rounds are items pertaining to the innovative domain, in which the U.S. did not participate.

The following questions are deleted from the Student Questionnaire:

- 2. Added items that are national, U.S.-specific items. Percentage of students eligible for free or reduced-price lunch was added to SC211 in school questionnaire and is shown on page 10. Items for students race and ethnicity were added to the student questionnaire and are shown on page 121.
- 3. Changes to spellings, wording, and phrases to align with American English usage. The source versions are in UK-English.
- 4. A specific adaptation under consideration is the addition of a third category to student gender. The international source versions now adds an option for a third gender category. This occurs in two items shown below. The proposed adaptations for the U.S. version of these items are shown for the text in carets (<>).

In the school questionnaire, item SC002 asks for a breakdown of enrollment by gender and allows for a third category:

SC002	As of <february 1,="" 2024="">, what was the total school enrolment (number of students)?</february>	
	(Please enter a number for each response. Enter there are none.)	"0" (zero) if
SC002Q01TA	Number of boys:	01
SC002Q02TA	Number of girls:	01
SC002Q03TA	<another gender="">:</another>	01

In the student questionnaire, item ST004 asks for student gender:

ST004	What is your gender?	
	(Please select one response.)	
	Female	01
	Male	02
	<another gender=""></another>	03

NCES is authorized to conduct the Program for International Student Assessment (PISA) by the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. § 9543), and to collect students' education records from educational agencies or institutions for the purpose of evaluating federally supported education programs under the Family Educational Rights and Privacy Act (FERPA, 34 CFR §§ 99.31(a)(3)(iii) and 99.35). The data are being collected for NCES by Westat, a U.S.-based research organization.

All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form, for any other purpose except as required by law (20 U.S.C., § 9573 and 6 U.S.C. §151). According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this voluntary information collection is 1850-0755. The time required to complete this information collection is estimated to average approximately 45 minutes per survey response, including the time to review instructions, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate, suggestions for improving this survey, or any comments or concerns regarding the status of your individual submission of this survey, please write directly to: The Program for Internantional Student Assessement (PISA), National Center for Education Statistics, Potomac Center Plaza, 550 12th St., SW, Room 4007, Washington, DC 20202.

OMB Clearance No: 1850-0755 Expiration Date: xx/xx/xxxx

Dear <school administrator>,

Thank you for participating in this study. This questionnaire asks for information about:

- School background information
- School management
- Teaching staff
- Assessment and evaluation
- Targeted groups
- School climate

This information will help illustrate the similarities and differences between groups of schools in order to better establish the context for students' test results. For example, the information provided may help to establish what effect the availability of resources may have on student achievement – both within and between countries.

The questionnaire should be completed by the principal or designate. It should take about 45 minutes to complete.

For some questions specific expertise may be needed. You may consult experts to help you answer these questions.

If you do not know an answer precisely, your best estimate will be adequate for the purpose of the study.

Please note that the forward button used to proceed to the next question is located at the bottom right hand corner of your screen. In some instances you may need to scroll down to the bottom of your screen to access this forward button.

Your answers will be kept confidential. They will be combined with answers from other principals to calculate totals and averages in which no school can be identified.

<Foreign languages²> - Foreign languages are all modern languages formally taught in school settings, other than the main language of instruction. <English²> - The English language.
<Language 1> | <Language 2> | < ...etc. > - Concerning the language list: Given the very strong interest in this question for the Foreign Language Assessment, countries are recommended to ensure that the languages spoken at home are identified for as many students as possible. So, we recommend including all languages that are expected to be spoken by at least 1% of students. In addition, countries should ensure that all answer options (checkbox vertical list) from PISA2018 ST022 are retained to allow for trends. These languages should be included in addition to the other languages explicitly listed among the answer options of this question. <National modal grade for 15-year-olds> should be replaced with the actual name of the grade attended by most 15-year-olds in your country. Where it is possible that a sampled school does not offer tuition at this grade level, an explanatory note can be added: "If your school does not teach this grade then answer this question for an adjacent grade where most of your 15-year-old students are enrolled".

NCES is authorized to conduct the Program for International Student Assessment (PISA) by the Education Sciences Reform Act of 2002 (ESRA 2002, 20 U.S.C. § 9543), and to collect students' education records from educational agencies or institutions for the purpose of evaluating federally supported education programs under the Family Educational Rights and Privacy Act (FERPA, 34 CFR §§ 99.31(a)(3)(iii) and 99.35). The data are being collected for NCES by Westat, a U.S.-based research organization.

All of the information you provide may be used only for statistical purposes and may not be disclosed, or used, in identifiable form, for any other purpose except as required by law (20 U.S.C., § 9573 and 6 U.S.C. §151). According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this voluntary information collection is 1850-0755. The time required to complete this information collection is estimated to average approximately 45 minutes per survey response, including the time to review instructions, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate, suggestions for improving this survey, or any comments or concerns regarding the status of your individual submission of this survey, please write directly to: The Program for Internantional Student Assessement (PISA), National Center for Education Statistics, Potomac Center Plaza, 550 12th St., SW, Room 4007, Washington, DC 20202.

Question notes: In response to stakeholder feedback, we have proposed the modification of the response options. We have added "I attended <ISCED 0> but do not remember when I started", "I do not know if I attended <ISCED 0>". We believe this will address the information required to dissagregate the information, but it does introduce a higher reading load. The questionnaire framework includes this note:

Question for Core 1: In PISA 2018 there were issues in the design of the question of attendance of ISCED 0: response categories "I didn't attend" and "I don't remember" were conflated. This made it impossible to measure trends. Can we separate into 2 items: i) Did you attend ISCED 0 (yes/no), ii) For how long did you attend ISCED 0? (I don't remember)? Or go back to previous way of asking?

		I could do this easily	I could do this with a bit of effort	I would struggle to do this on my own	I couldn't do this
From 2015	Recognize the science question that underlies a newspaper report on a health issue.				
From 2015	Explain why earthquakes occur more frequently in some areas than in others.				
From 2015	Describe the role of antibiotics in the treatment of disease.				
From 2015	Identify the science question associated with the disposal of garbage.				
From 2015	Predict how changes to an environment will affect the survival of certain species.				
From 2015	Interpret the scientific information provided on the labelling of food items.				
From 2015	Discuss how new evidence can lead you to change your understanding about the possibility of life on Mars.

Imagine a 10-point scale that represents how much effort you invest in something.

The highest value (10) marks a situation where you tried your very best and put as much effort as possible to do well.

The lowest value (1) marks a situation where you did not try hard at all and put the lowest possible effort to do well.

PISA 2025 Field Test ICT Questionnaire

ICT QUESTIONNAIRE FOR PISA 2025 (U.S. Option) Field Trial Version

Version for first NPM Meeting, March 2023

Instruction

The following questions will ask you about digital resources that you may use, both inside and outside of school. Digital resources refer here to the following:

- digital devices or "hardware" (e.g., computers, tablets, smartphones, 3D printers)
- software (e.g., programs, apps, communication tools, educational learning tools); and
- online resources (e.g., websites, web portals).

Please think of <u>all</u> of these when answering the questions on the following screens.

This school year, how often did you use the following digital resources <u>at school</u>?
