### Quarterly Performance Reporting

DOE F 540.7

OMB Control No: XXXX-XXXX  
Expiration Date: XX/XX/XXXX

#### PAPERWORK REDUCTION ACT STATEMENT *(click here to hide...)*

This data is being collected to adequately monitor programmatic and financial expenditures and obligations and ensure transparency and accountability. The data you supply will be used by DOE to determine program outcomes and respond to Congressional, budget, and OMB requests.

Public reporting burden for this collection of information is estimated to average 33.3 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Office of the Chief Information Officer, IM-22, Paperwork Reduction Act Office, U.S. Department of Energy, 1000 Independence Ave, SW Washington DC 20585-1290; and to the Office of Management and Budget (OMB), OIRA, Paperwork Reduction Project, Washington, DC 20503.

Submission of this data is mandatory as appropriate and grant recipients can only view their own reporting using multifactor authentication.

NOTE: Recipients are not required to report without a valid OMB control number and expiration date.

The State Energy Program (RLF) Quarterly Performance Reports are due no later than 30 calendar days after the end of each quarter. The Quarterly Performance Reports contain activity level information on costs, milestones, metrics, and qualitative descriptions that combined provide a comprehensive view of activity progress.

Quarterly Performance Reports are submitted to, and approved by DOE via this page. After a grantee enters the performance information for all activities, simply check the "Ready for submission" box on each, at which time a "Sign and Submit" button will be enabled to sign and submit the Program Performance Report to DOE. After reviewing the Program Performance Report for each activity, DOE will follow the same process to approve or reject the submitted report.

This report is not complete until it has been submitted to DOE

**Description:** Illinois EPA Office of Energy and the Illinois Climate Bank will initially focus on development of a Bridge Loan that, paired with required building energy audits and retrofit projects, will fill the important funding gap between project completion and the new IRA Direct Pay. The Bridge Loan will allow commercial building owners to prove eligibility and more quickly access payment. Illinois Climate Bank will focus on a leverage model to mobilize private capital from a network of lenders. Once capacity allows and demand calls, Illinois Climate Bank will develop additional EE RLF opportunities in the commercial sector including loans focused on building electrification finance, working capital for diverse businesses, and commercial energy efficiency retrofits.

**Planned Dates:** 04/01/2023 - 03/31/2028
