State Energy Program Annual File

DOE F 540.1
(XX/XX)

OMB Control No: XXXX-XXXX
Expiration Date: XX/XX/XXXX

PAPERWORK REDUCTION ACT STATEMENT *(click here to hide...)*

This data is being collected to adequately monitor programmatic and financial expenditures and obligations and ensure transparency and accountability. The data you supply will be used by DOE to determine program outcomes and respond to Congressional, budget, and OMB requests.

Public reporting burden for this collection of information is estimated to average 33.3 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Office of the Chief Information Officer, IM-22, Paperwork Reduction Act Office, U.S. Department of Energy, 1000 Independence Ave, SW Washington DC 20585-1290; and to the Office of Management and Budget (OMB), OIRA, Paperwork Reduction Project, Washington, DC 20503.

Submission of this data is mandatory as appropriate and grant recipients can only view their own reporting using multifactor authentication.

NOTE: Recipients are not required to report without a valid OMB control number and expiration date.

The Annual File section of the State Plan describes each "activity" for which the state requests financial assistance for a given year, including budget information and milestones and the intended scope and goals to be attained either qualitatively or quantitatively. The Annual File must account for all funds budgeted within the program year, including funds for administrative activities. This includes match and PVE funds. The Annual File must include at least one process metric for each activity (administrative activities are exempt from this requirement). The description section of the Annual File should explain concisely the activities that will be completed under each, including goals and objectives, with enough specificity to allow DOE to determine that the proposed work meets SEP requirements and includes no prohibited activities.

6. Description (executive summary of goals and objectives)*

[Edit](#)

CEO is supporting the Attorney General's Partnership for Education and Rural Revitalization (HGYT) through grants to fund high-efficiency equipment installations (ductless minisplit heat pumps, insulation, etc) in homes that Community College have purchased and are rehabbing. This project will support the installation of advanced efficiency equipment in affordable homes, but also workforce development and training in the region. CEO will work with these colleges to provide funding support as well as collaborate on case studies that highlight the benefits of energy efficiency, beneficial electrification, as well as the training provided by the project.

7. Program year milestones

Milestone Description	Planned Amt	Action
Homes in JHJH program retrofitted with advanced EE / electric equipment	0	 
JHJH case study developed and publicized (around all-electric and workforce development benefits)	0
