Paperwork Reduction Act Burden Statement

A federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a currently valid OMB Control Number. The OMB Control Number for this information collection is 21XX-XXXX. Public reporting for this collection of information is estimated to be approximately 4 hours annually for each recipient. There are 53 recipients totaling 212 hours nationally, this includes the time for reviewing instructions, searching existing data sources, gathering, and maintaining the data needed, completing, and reviewing the collection of information.

All responses to this collection of information are required to obtain or retain a benefit [23 CFR 230.204]. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: Information Collection Clearance Officer, Department of Transportation, Federal Highway Administration, 1200 New Jersey Ave SE, Washington, D.C. 20590.

FHWA requires each State DOT to design an effective and feasible metric-based DBE/SS program for the purpose for increasing the capacity and to improve the overall business practices of DBEs. State DOTs are required to submit to FHWA a detailed Statement of Work (SOW) for meeting the requirements of 23 CFR 230.204(b).

The SOW must outline the State DOT's proposed budget, approximated, based on the provided estimated funding allocation. State DOTs must describe how the program will deliver business development services for identified DBEs and the process of how staff selects DBEs for the program. The SOW should contain goals and objectives tailored to the development of each identified DBE participant.

State DOTs must submit only one SOW per Federal fiscal year, although each SOW may include multiple concepts within a single submission. For example, the SOW may include an element of a concluding program and an additional Business Development element. State DOTs should announce all DBE/SS solicitations on their public website and must solicit proposals from qualified sources in such a way as to ensure the competitive nature of the procurement (23 CFR § 230.204 (e)).

Please complete the following outlined SOW template. Please contact your Division Civil Rights Specialist for additional assistance.
