## **Survey of Earned Doctorates Institutional Profile - Example**

# Survey of Earned Doctorates 2021

## Confidential Results for ABC University

Of your institution's 141 research doctorate recipients in 2021, 99% responded to the Survey of Earned Doctorates (SED); nationally, 92% of research doctorate recipients responded to the SED.

### Postgraduation Plans

### Starting Salary

S&E doctorate recipients

Non-S&E doctorate recipients

Different U.S. region	59	41.8	59	46.5	0	0.0
Abroad	7	5.0	5	3.9	2	14.3

S&E = science and engineering.

<sup>a</sup> See <https://carnegieclassifications.acenet.edu/listings.php> for information about the 2018 Carnegie Classifications used in this report.

<sup>b</sup> American Indian or Alaska Native, Asian, Black or African American, and White are single race who are not Hispanic; Hispanic or Latino may be of any race. Other race or race not reported category includes Native Hawaiian or Other Pacific Islander, and doctorate recipients who are not Hispanic or Latino and did not indicate their race.

<sup>c</sup> Interdisciplinary dissertation research is captured by response to primary and secondary dissertation research field items. Respondents reporting a secondary dissertation research field are considered interdisciplinary and counted under the broad field of their first reported dissertation research field.

<sup>d</sup> Time to doctorate from doctoral program start is based on master's degree entry if the master's degree was at the doctoral institution in the same fine field of study or was a prerequisite to the doctorate; otherwise, it is based on doctoral program entry.

<sup>e</sup> Salary ranges include only doctorate recipients reporting definite postgraduation plans who responded to salary question.

NOTES: S&E includes agricultural sciences and natural resources, biological and biomedical sciences, computer and information sciences, engineering, geosciences, atmospheric, and ocean sciences, health sciences, mathematics and statistics, multidisciplinary/interdisciplinary sciences, physical sciences, psychology, and social sciences. Non-S&E includes business, education, humanities, visual and performing arts, and other professional fields. Except for those reported for the demographic variables, percentages are based on total responses with missing data excluded. Percentage totals may not sum to 100 because of rounding. Percentages calculated based on a small number of cases should be interpreted with caution.
