

How to Enter Volume and Value Data Using the eFISH Portal

Two Volume and Value Reports are included as components of the cost recovery programs for the Amendment 80 Program and the Western Alaska Community Development Quota Program (CDQ Program). They are:

- the First Wholesale Volume and Value Report, and
- the Pacific Cod Ex-Vessel Volume and Value Report.

These reports are used to estimate the ex-vessel value of groundfish species subject to cost recovery in the Amendment 80 and CDQ Programs. NMFS will use the estimated ex-vessel value for each groundfish species to develop standard prices. Standard prices are then used to calculate the cost recovery fee liability for fishery participants in the Amendment 80 Program and the CDQ Program.

The First Wholesale Volume and Value Report must be completed by Amendment 80 vessel owners whose vessels harvest groundfish species, other than Pacific cod, with trawl gear under the Amendment 80 and CDQ programs. Individual reports must be completed for each Amendment 80 vessel that participated in the Amendment 80 or CDQ Program groundfish fisheries during that year (i.e., for persons who own multiple catcher/processors, a separate report must be completed for each vessel).

The Pacific Cod Ex-Vessel Volume and Value Report must be completed by shoreside processors and motherships that receive deliveries of unprocessed Pacific cod harvested from the Bering Sea and Aleutian Islands (BSAI). Pacific cod caught with trawl and fixed gear in the BSAI for which an ex-vessel price was paid to a harvesting vessel must be reported. Individual reports must be completed for each mothership or shoreside facility (i.e., for persons who own multiple motherships and/or shoreside processing facilities, a separate report must be completed for each).

Volume and Value Reports are due to NMFS by November 10 of the year in which the landings were made. Volume and Value Reports must be submitted using an online system called eFISH. For more information about how to log into eFISH go here: [eFISH Web Application](#). To access eFISH, users will need the following:

- NMFS ID number and password. The NMFS ID is a unique number assigned to a person(s)/company that applies for federal permits through the Restricted Access Management (RAM) Division;
- the Federal Fisheries Permit (FFP) or Federal Processing Permit (FPP) number for the catcher/processor, mothership, or shoreside processor for which you are submitting a volume and value report.

1. Go to: <https://alaskafisheries.noaa.gov/webapps/efish/login>

Program Participant Login

If you are logging in for the first time, you will be prompted to change your password to activate your account. You will not be able to activate your account unless your current e-mail address is on file with NMFS.

[Forgot your password?](#) OR [Activate an Account](#). Updates to contact information may be made under Account after login. Please contact NMFS, Alaska Region, Restricted Access Management Program for your eFISH user_id.

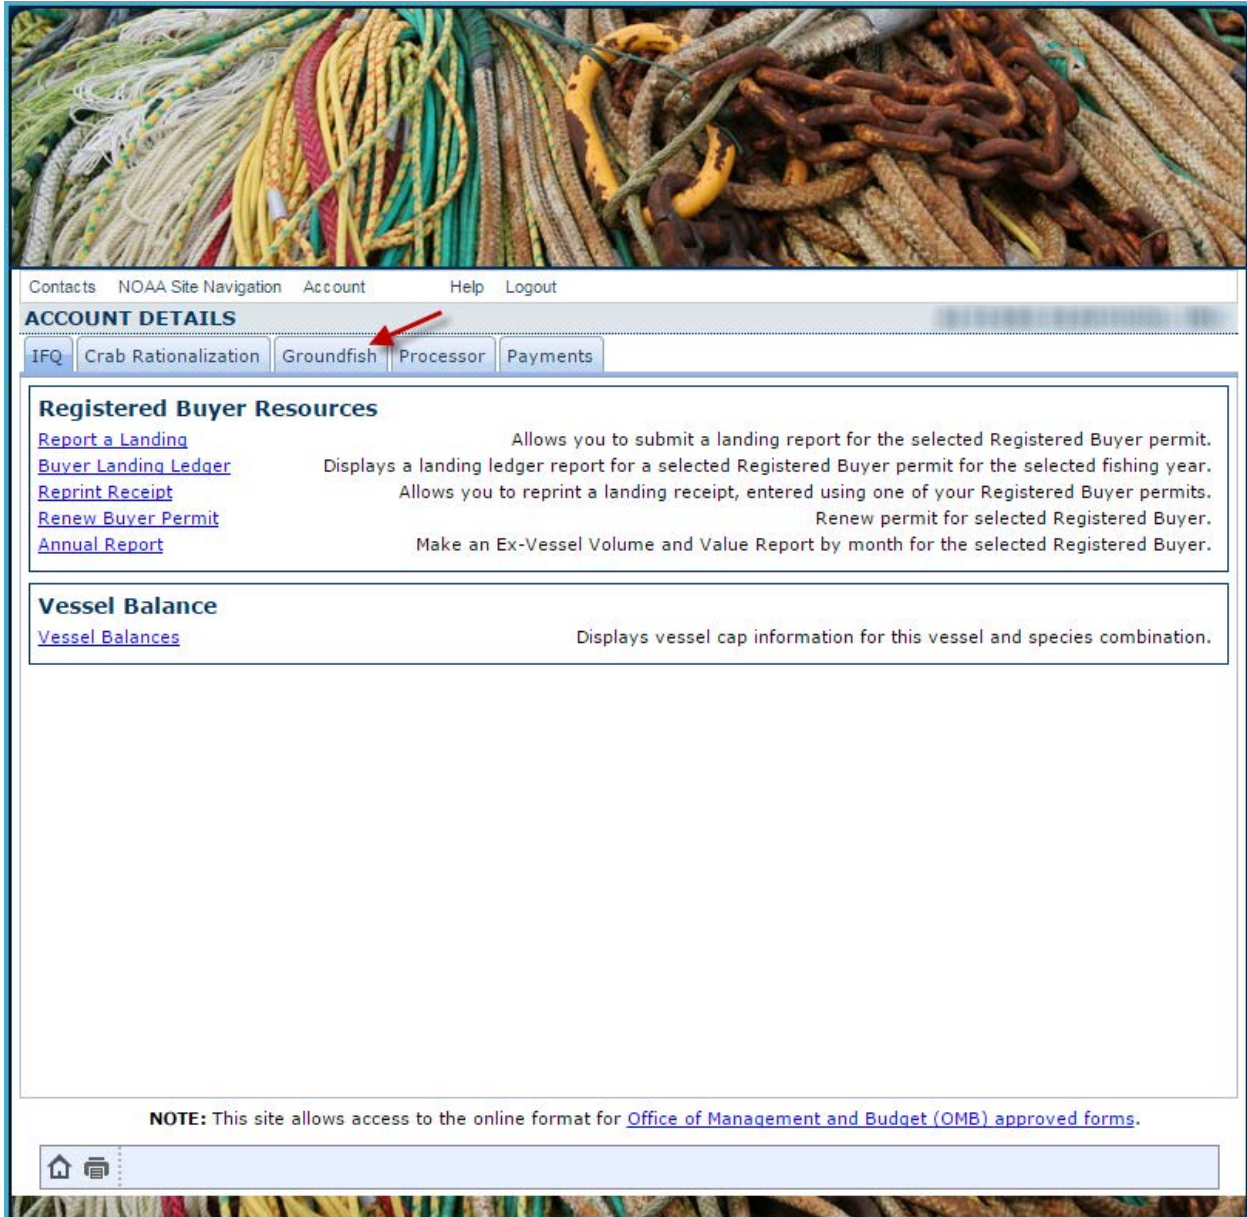

SYSTEM REQUIREMENTS: This site requires Internet Explorer version 9 or above. You can also use [Chrome](#), [Firefox](#) or another major browser.

NOTE: This site allows access to the online format for [Office of Management and Budget \(OMB\) approved forms](#).

[Privacy Act Statement](#)

- Check the Acknowledge and Accept checkbox
- Enter your *NMFS ID*
- Enter your *Password*
- Click on the *Login* button

2. Depending on your eFISH configuration, the default menu can vary. For some, it will open on the *Groundfish* tab. If it does not open on the *Groundfish* tab, click on the *Groundfish* tab to access all the Volume and Value options.

The screenshot displays the eFISH web application interface. At the top, there is a navigation bar with links for 'Contacts', 'NOAA Site Navigation', 'Account', 'Help', and 'Logout'. Below this is the 'ACCOUNT DETAILS' section, which contains several tabs: 'IFQ', 'Crab Rationalization', 'Groundfish', 'Processor', and 'Payments'. A red arrow points to the 'Groundfish' tab, indicating it is the selected tab. The main content area is divided into two sections: 'Registered Buyer Resources' and 'Vessel Balance'. The 'Registered Buyer Resources' section includes links for 'Report a Landing', 'Buyer Landing Ledger', 'Reprint Receipt', 'Renew Buyer Permit', and 'Annual Report', each with a brief description of its function. The 'Vessel Balance' section includes a link for 'Vessel Balances' and a description of the information it displays. At the bottom of the page, there is a note stating: 'NOTE: This site allows access to the online format for Office of Management and Budget (OMB) approved forms.' Below the note is a footer bar containing a home icon and a printer icon.

First Wholesale Volume and Value Report

The First Wholesale Volume and Value Report collects information for the following groundfish:

- BSAI Arrowtooth flounder
- BSAI Atka mackerel
- AI Pacific Ocean perch
- BSAI Sablefish
- BSAI Flathead sole
- BSAI Yellowfin sole
- BS Greenland turbot
- BSAI Rock sole

For all species except rock sole, the report collects information for fish landed between January 1 and October 31 of each year. For rock sole, the report collects information for the period from January 1 through March 31 and then separately for April 1 through October 31.

You should not report any Amendment 80 Program and CDQ Program groundfish harvest processed into fish meal.

1. Click on the *First Wholesale Volume and Value* link in blue text

FIRST WHOLESALE VOLUME AND VALUE REPORT

NMFS Id: _____ **Date:** 08/21/2018

This report must be submitted electronically to NMFS no later than **November 10** of the year in which the landings were made.

NOTE: All values must be the total for landings from January 1 through October 31, except rock sole which will be reported from January 1 through March 31 and then again from April 1 through October 31.

Pounds Landed (round weight): Enter the total round weight in pounds of unprocessed fish that was caught and retained. If the species was processed into fish meal, do not include this in the total weight.

Total First Wholesale Value Received: Enter the total first wholesale value, in U.S. dollars and cents, for that species and time period. The first arms length transaction that occurs under these conditions is the first wholesale price or first market price. If the species was processed into fish meal, do not include this in the total value.

- The default year should be the *current year*. If not, select the *current year* from the year drop down menu
- Select the *Permit ID* of the vessel you wish to enter first wholesale volume and value data for from the Permit drop down menu

3. First Wholesale Volume and Value help window

The screenshot shows the NOAA NMFS 'First Wholesale Volume and Value' report form. A help dialog box is open, providing instructions on how to edit and submit the report. The dialog box is titled 'Help Dialog' and contains the following text:

First Wholesale Volume and Value
Instructions on how to edit and submit report:

1. Select values from the drop-down lists for the year and permit number. Any previously entered values will be displayed in the form below. Form values can be refreshed at any time by using the refresh icon .
2. Enter the volume and value information for each species (and time period, if applicable) as indicated. **For any species that you did not harvest, leave the row blank.**
3. After entering all volume and value information for the selected permit, click on 'Submit Update' to send the data to NMFS. By clicking on submit, you are certifying that all information is true, correct, and complete to the best of your knowledge and belief. You will have an opportunity to make changes **until November 10th** of this year.
4. If an item was entered in error, you may clear out the existing values (leaving the row blank), then click on 'Submit Update' to remove the entries.
5. Click on the export icon to see all volume and value report data submitted to NMFS for all permits. All values for the selected year will be exported.
6. For species that you did not land, leave the row blank. If you made an error in your submission, please enter the correct

The background of the screenshot shows the report form with various fields and a table of species and time periods. A red arrow points to the help icon in the top right corner of the form, and another red arrow points to the help icon in the bottom right corner of the form.

- Instructions on how to edit and submit volume and value data can be accessed at any time by clicking on the *help icon*:

- The help dialog box can be closed by clicking on

- Pounds Landed (round weight)
 - Enter the *total round weight in pounds* of the species that were deducted from the Amendment 80 or CDQ account.
 - If, during the year, landings of a particular species included deductions from both an Amendment 80 and a CDQ account, please sum the round weight for that species and report the total pounds. For all species, *except rock sole*, the round weight must be the total for landings from January 1 through October 31.
 - For rock sole, the round weight must be the total for landings from January 1 through March 31 and then April 1 and through October 31.
 - If the species was processed into fish meal, do not include this in the total weight.
- Wholesale Gross Value Received (\$)
 - Enter the *total first wholesale value* received for the species that were deducted from the Amendment 80 or CDQ account.
 - If, during the year, landings of a particular species included deductions from both an Amendment 80 and a CDQ account, please sum the value received for that species and report the total wholesale value.
 - For all species, *except rock sole*, the value must be the total for landings from January 1 through October 31.
 - For rock sole, the value must be the total for landings from January 1 through March 31 and then April 1 and through October 31.
 - Report the information in U.S. dollars and cents
 - If the species was processed into fish meal, do not include this in the total value

- For your reference, subtotals are provided for the pounds landed and wholesale gross value received information as they are being entered.
- Click on *Submit Update* once you have completed entering volume and value information for this vessel. A pop up window will inform you if the information was successfully saved:
