

August 23, 2023; and Tuesday, September 26, 2023, and Wednesday, September 27, 2023, from 11 a.m. until 5 p.m., eastern time. All sessions will be open to the public. The IoT Advisory Board is authorized by section 9204(b)(5) of the William M. (Mac) Thornberry National Defense Authorization Act for Fiscal Year 2021 (Pub. L. 116–283) and advises the IoT Federal Working Group convened by the Secretary of Commerce pursuant to section 9204(b)(1) of the Act on matters related to the Federal Working Group’s activities. Details regarding the IoT Advisory Board’s activities are available at <https://www.nist.gov/itl/applied-cybersecurity/nist-cybersecurity-iot-program/internet-things-advisory-board>.

The agendas for the August and September meetings are expected to focus on establishing consensus on the recommendations to be included in the IoT Advisory Board’s report for the IoT Federal Working Group.

The recommendations and discussions are expected to focus on the specific focus areas for the report cited in the legislation and the charter:

- Smart traffic and transit technologies.
- Augmented logistics and supply chains.

- Sustainable infrastructure.
- Precision agriculture.
- Environmental monitoring.
- Public safety.
- Health care.

In addition, the IoT Advisory Board may discuss other elements that the legislation called for in the report:

- whether adequate spectrum is available to support the growing Internet of Things and what legal or regulatory barriers may exist to providing any spectrum needed in the future;
- policies, programs, or multi-stakeholder activities that—
 - promote or are related to the privacy of individuals who use or are affected by the Internet of Things;
 - may enhance the security of the Internet of Things, including the security of critical infrastructure;
 - may protect users of the Internet of Things; and
 - may encourage coordination among Federal agencies with jurisdiction over the Internet of Things.

Note that agenda items may change without notice. The final agendas will be posted on the IoT Advisory Board web page: <https://www.nist.gov/itl/applied-cybersecurity/nist-cybersecurity-iot-program/internet-things-advisory-board>.

Public Participation: Written comments from the public are invited

and may be submitted electronically by email to Barbara Cuthill at the contact information indicated in the **FOR FURTHER INFORMATION CONTACT** section of this notice by 5 p.m. on August 15 for the August meeting, or by 5 p.m. on September 19 for the September meeting, for advance distribution to members.

Each IoT Advisory Board meeting agenda will include a period, not to exceed sixty minutes, for submitted comments from the public to be presented. Submitted comments from the public will be selected on a first-come, first-served basis and limited to five minutes per person for oral presentation if requested by the commenter.

Members of the public who wish to expand upon their submitted statements, those who had wished to submit a comment but could not be accommodated on the agenda, and those who were unable to attend the meeting via webinar are invited to submit written statements. In addition, written statements are invited and may be submitted to the IoT Advisory Board at any time. All written statements should be directed to the IoT Advisory Board Secretariat, Information Technology Laboratory by email to: Barbara.Cuthill@nist.gov.

Admittance Instructions: Participants planning to attend via webinar must register via the instructions found on the IoT Advisory Board’s page <https://www.nist.gov/itl/applied-cybersecurity/nist-cybersecurity-iot-program/internet-things-advisory-board>.

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Marine Recreational Information Program Fishing Effort Survey

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to

comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. Public comments were previously requested via the **Federal Register** on April 11, 2023 (88 FR 21628) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration (NOAA), Commerce.

Title: Marine Recreational Information Program, Fishing Effort Survey.

OMB Control Number: 0648–0652.

Form Number(s): None.

Type of Request: Regular submission (revision of a current information collection).

Number of Respondents: 183,333.

Average Hours per Response: 5 minutes.

Total Annual Burden Hours: 15,278.

Needs and Uses: This is a request for revision and extension of an approved information collection. The request includes a new pilot study to test a shorter reference period that will increase the utility of survey data and estimates for fisheries managers and stock assessment scientists by providing greater resolution and more timely access to survey products. Additionally, the Reporting Sensitivity Experiment survey has been completed and that collection will be removed from this control number.

Marine recreational anglers are surveyed to collect catch and effort data, fish biology data, and angler socioeconomic characteristics. These data are required to carry out provisions of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), as amended, regarding conservation and management of fishery resources.

Marine recreational fishing catch and effort data are collected through a combination of mail surveys, telephone surveys, and on-site intercept surveys with recreational anglers. The Marine Recreational Information Program (MRIP) Fishing Effort Survey (FES) is a self-administered, household mail survey that samples from a residential address frame to collect data on the number of recreational anglers and the number of recreational fishing trips. The survey estimates marine recreational fishing activity for all coastal states from Maine through Mississippi, as well as Hawaii and Puerto Rico. Currently, MRIP produces estimates for two-month reference waves. The proposed collection will include experimental work to evaluate shorter reference

periods that would more fully support fisheries management and stock assessment needs.

FES estimates are combined with estimates derived from complementary surveys of fishing trips, the Access-Point Angler Intercept Survey, to estimate total, state-level fishing catch, by species. These estimates are used in the development, implementation, and monitoring of fishery management programs by NOAA Fisheries, regional fishery management councils, interstate marine fisheries commissions, and state fishery agencies.

Affected Public: Individuals or households.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0652.

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public meeting of its Monkfish Research Set-Aside Working Group via webinar to consider actions affecting New England fisheries in the

exclusive economic zone (EEZ).

Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate.

DATES: This webinar will be held on Monday, July 24, 2023, at 9 a.m.

ADDRESSES:

Webinar registration URL information: <https://attendee.gotowebinar.com/register/5103572767688354907>.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT:

Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465–0492.

SUPPLEMENTARY INFORMATION:

Agenda

The Monkfish Research Set-Aside (RSA) Working Group will meet to discuss any additional challenges to the Monkfish RSA program not previously identified. They will also discuss potential solutions to improve the Monkfish RSA program. For each potential solution, identify a concern/challenge that the solution addresses and any pros and cons for the potential solution. These will be further evaluated by working group members.

Other business may be discussed, as necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.
