Abstract: The Service offers eligible Native American, Alaska Native, Native Hawaiian, and Pacific Islander high school students the opportunity to apply for the Native Youth Climate Adaptation Leadership Congress (Congress). The mission of the Congress is to develop future conservation leaders with the skills, knowledge, and tools to address environmental change and conservation challenges to better serve their schools and home communities. The Congress supports and operates under the following authorities:

- Executive Order (E.O.) 13175, “Consultation and Coordination With Indian Tribal Governments” (November 6, 2000);
- E.O. 13515, “Increasing Participation of Asian Americans and Pacific Islanders in Federal Programs” (October 14, 2009);
- E.O. 13592, “Improving American Indian and Alaska Native Educational Opportunities and Strengthening Tribal Colleges and Universities” (December 2, 2011);
- Public Law 116–9, Section 9003, “John D. Dingell, Jr. Conservation, Management, and Recreation Act” (March 12, 2019);
- 16 U.S.C. 1727b, Indian Youth Service Corps;
- White House Memorandum on Government-to-Government Relationships with Tribal Governments (September 23, 2004);
- Secretarial Order (S.O.) 3206, “American Indian Tribal Rights, Federal-Tribal Trust Responsibilities, and the Endangered Species Act,” issued jointly by the Department of the Interior and the Department of Commerce (June 5, 1997);
- S.O. 3317, “Department of the Interior Policy on Consultation with Indian Tribes” (December 1, 2011);
- S.O. 3335, “Reaffirmation of the Federal Trust Responsibility to Federally Recognized Indian Tribes and Individual Indian Beneficiaries” (August 20, 2014);
- S.O. 3403, “Joint Secretarial Order on Fulfilling the Trust Responsibility to Indian Tribes in the Stewardship of Federal Lands and Waters”;
- Director’s Order (D.O.) 227, “Fulfilling the Trust Responsibility to

Tribes and the Native Hawaiian Community, and Other Obligations to Alaska Native Corporations and Alaska Native Organizations, in the Stewardship of Federal Lands and Waters”;

- The Service’s Native American Policy (510 FW 1), published January 20, 2016.

The following Federal partners assist and support the Service’s administration of the Congress:

- The U.S. Department of the Interior—
 - Bureau of Indian Affairs;
 - Bureau of Land Management;
 - National Park Service; and
 - United States Geological Survey;
- The U.S. Department of Agriculture—U.S. Forest Service;
- The U.S. Department of Commerce—National Oceanic and Atmospheric Administration;
- The Federal Emergency Management Agency;
- The National Aeronautics and Space Administration; and
- The Environmental Protection Agency.

The weeklong environmental Congress fosters an inclusive and meaningful educational opportunity for aspiring Indigenous youth leaders interested in addressing environmental issues facing Native American, Alaska Native, Native Hawaiians, and Pacific Islander communities. Eligible students—representing a diverse mix of Indigenous communities from various geographic locations, both urban and rural—compete for the opportunity to represent their communities from across the country. The students learn about environmental change and conservation while strengthening their leadership skills for addressing conservation issues within their own communities.

Through a cooperative agreement with the New Mexico Wildlife Federation (NMWF), the Service solicits and evaluates applications from eligible students interested in applying for the program. The NMWF notifies successful applicants and arranges all travel for them. Information collected from each applicant via an online application administered by the NMWF includes:

- Applicant’s full name, contact information, date of birth, and Tribal/community affiliation;
- Emergency contact information for applicant;
- Name and contact information of applicant’s mentor;
- Applicant’s school name and address;
- Applicant’s current grade in school;

- Applicant's participation in extracurricular activities, school clubs, or community organizations;

- Applicant's volunteer experience; and

- Applicant's accomplishments or awards received.

Each applicant provides essay responses to questions concerning topics such as environmental issues affecting their home/Tribal community, how or whether the environmental issues are addressed, and/or how, as a Native youth leader, they can lead the community in adapting to a changing environment.

In addition to the online application form, the Service uses following forms in conjunction with the Congress:

- Form 3–2525, “Native Youth Climate Adaptation Leadership Congress Student Medical Information”—collects the following information:

- Student's full name and preferred name;

- Date of birth;

- Age;

- Health insurance policy information;

- Medication information, to include dose and frequency;

- Drug and/or food sensitivities/allergies;

- Medications and immunizations; and
- Pre-existing condition(s).

- Form 3–2546, “Enrollment Form”—collects the following information:

- Applicant's full name, address, and contact information;

- Parent/guardian name and contact information;

- Student's age, date of birth, and gender;

- Student's high school year;

- Student's high school name, address, and contact information; and

- Form 3–2549, “Mentor Waiver”—collects the following information:

We require successful students to provide basic medical information so that we can assure their health and safety while on site at the National Conservation Training Center. The on-site nurse keeps this information strictly confidential, for use only in an emergency. Additionally, we ask all minors, Congress, and junior faculty participants to complete the Service's photo release and the contractor's river waiver. Although both forms are certifications and exempt under the PRA, they are included in this information collection as supplemental documents.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[[BLM_ID_FRN_MO4500172371]]

Extension of Segregation for the Proposed Lava Ridge Wind Project in Jerome, Lincoln, and Minidoka Counties, ID

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management (BLM) Shoshone Field Office announces the extension of the segregation of 106,555.88 acres of public lands for the Lava Ridge Wind Project (project) for an additional two years, subject to valid existing rights. The public land involved will be segregated from appropriation under the public land laws, including the Mining Law of 1872, but not the mineral leasing or material sale laws. This segregation extension is necessary to allow for the orderly administration of the public lands and to facilitate the completion of

the BLM's review and decision regarding the project.

DATES: This segregation extension for the lands identified in this notice is effective on August 18, 2023.

ADDRESSES: Submit comments related to the project by any of the following methods:

- *Email:* BLM_ID_LavaRidge@blm.gov.
- *Mail:* Lava Ridge Wind Energy EIS, BLM Shoshone Field Office, Attn: Kasey Prestwich, 400 West F Street, Shoshone, ID 83352.

FOR FURTHER INFORMATION CONTACT: Kasey Prestwich, Project Manager, telephone: 208–732–7204; address: BLM Shoshone Field Office, 400 West F Street, Shoshone, ID 83352; email: kprestwich@blm.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services for contacting Mr. Prestwich. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: Magic Valley Energy, LLC has applied for a right-of-way (ROW) grant to construct, operate, maintain, and decommission the project, a wind energy facility and ancillary facilities primarily on BLM-administered public lands in Jerome, Lincoln, and Minidoka Counties, Idaho.

The BLM published a notice of intent to prepare an environmental impact statement for the project on August 20, 2021 (86 FR 46867). The BLM published a notice of availability for the draft

environmental impact statement for the project on January 20, 2023 (88 FR 3759).

Segregation of the Public Lands: On April 30, 2013, the BLM published a Final Rule, Segregation of Lands—Renewable Energy (78 FR 25204), that amended the regulations found in 43 CFR 2090 and 2800. The provisions of the Final Rule allow the BLM to temporarily segregate public lands within a solar or wind application area from the operation of the public land laws, including the Mining Law of 1872, by publication of a **Federal Register** notice. The BLM uses this temporary segregation authority to preserve its ability to approve, approve with modifications, or deny proposed ROWs, and to facilitate the orderly administration of the public lands, subject to valid existing rights. Licenses, permits, cooperative agreements, or discretionary land use authorizations of a temporary nature that would not impact lands identified in this notice may be allowed with the approval of an authorized officer of the BLM during the segregation period.

The Final Rule allows a State Director to extend the project-specific segregation if that segregation would expire before a decision can be made. In 2021, the BLM temporarily segregated the lands for two years (86 FR 46867). The two-year segregation expires on August 20, 2023.

The lands segregated under this notice are legally described as follows:
