TITLE OF INFORMATION COLLECTION: *Automated Collection System (ACS) Interactive Voice Response (IVR) - SOI Control #A11-20-15*

PURPOSE OF COLLECTION: *To identify what ACS Toll-Free staff and managers can do to improve customer service and taxpayer satisfaction.*

TYPE OF ACTIVITY: (Check one)

- Customer Research (Interview, Focus Groups)
- Customer Feedback Survey**
- User Testing

ACTIVITY DETAILS

1. How will you collect the information? (Check all that apply)

- Web-based or other forms of Social Media
- Telephone**
- In-person
- Mail
- Other, Explain

2. Who will you collect the information from?

Explain who will be interviewed and why the group is appropriate for the Federal program / service to connect with. Please provide a description of how you plan to identify your potential group of respondents and if only a sample will be solicited for feedback, how you will select them (e.g., anyone who provided an email address to a call center rep, a representative sample of Veterans who received outpatient services in May 2019, do you have a list of customers to reach out to (e.g., a CRM database that has the contact information, intercept interviews at a particular field office?)

The ACS Interactive Voice Recognition (IVR) survey is designed to measure taxpayers' satisfaction with the service they received during a call in which they spoke with an ACS representative.

ACS is responsible for resolving Federal tax delinquencies that involve unpaid taxes and/or unfiled returns. ACS primarily interacts with taxpayers over the phone. Since ACS is empowered to take enforcement action to resolve delinquent accounts, many contacts are the result of taxpayers calling ACS in response to a

proposed, or completed, enforcement action. Such actions can include issuing a notice of levy against a taxpayer's property, wages, bank accounts or accounts receivable; or filing a notice of federal tax lien to secure the Government's interest against the taxpayer's property.

When taxpayers call, ACS employees attempt to secure enough information to resolve the tax issues. If the taxpayer does not provide all the required information, they may be instructed to follow up by mailing in documents or calling back at another time when the information is available. ACS employees must often walk a fine line in providing top-quality service to taxpayers while also fulfilling their responsibilities to resolve tax liabilities in an efficient and effective manner.

3. How will you ask a respondent to provide this information? (e.g., after an application is submitted online, the final screen will present the opportunity to provide feedback by presenting a link to a feedback form / an actual feedback form)

The information is collected via an Interactive Voice Recognition (IVR) survey after a taxpayer has participated in a phone call with the IRS.

4. What will the activity look like? Describe the information collection activity - e.g. what happens when a person agrees to participate? Will facilitators or interviewers be used? What's the format of the interview/focus group? If a survey, describe the overall survey layout/length/other details? If User Testing, what actions will you observe / how will you have respondents interact with a product you need feedback on?

Taxpayers who call in to the ACS telephone lines in response to notices mailed to them about their payment or filing delinquency are the potential population for the ACS survey. When taxpayers call the ACS telephone number, an IRS employee monitors the incoming calls that match the sampling pattern. Variables for selecting incoming call participants from the ACS line include hour of day, day of week, and time of year. At the end of each selected call, the IRS monitor notifies the IRS customer service representative that the call has been selected for inclusion in the survey. Taxpayers are asked if they would like to participate in a voluntary survey. Callers who agree to participate are transferred to the IRS monitor, who then transfers the customer into an automated survey. The survey takes approximately 10 minutes to complete.

5. Please provide your question list.
Include as an attachment the questions or prompts presented to participants in your activity. Make sure that all instruments, instructions, and scripts are submitted with the request.
