TITLE OF INFORMATION COLLECTION: Appointment Line IVR Survey

PURPOSE OF COLLECTION:

The Internal Revenue Service (IRS) have a balanced measurement system consisting of business results, customer satisfaction, and employee satisfaction. This initiative is part of the Service-wide effort to maintain a system of balanced organizational performance measures mandated by the IRS Restructuring and Reform Act (RRA) of 1998. This is also a result of Executive Order 12862 that requires all government agencies to survey their customers.

For the Wage and Investment Division, the Appointment line, which was set up for taxpayers interested in scheduling Field Assistance (FA) face to face service. To schedule an appointment at a walk-in office, taxpayers must call the Appointment line which is answered by Accounts Management (AM) Customer Service Representatives (CSR). The AM CSRs who answer the Appointment line are instructed to first try to provide service and resolve the taxpayers issue over the phone, direct taxpayers to an alternative service channel when applicable and set appointments for those with tasks that require face to face service or those who prefer face to face service.

Information collected from the point of service Interactive Voice Response (IVR) customer satisfaction survey and the follow-up surveys will be used to provide meaningful feedback to managers and staff for both FA and AM. The follow-up data collection will measure changes in customer satisfaction, changes in issue resolution, and taxpayer behavior after the taxpayer’s call to the Appointment line. These surveys will assist in assessing overall customer satisfaction and overall quality for balanced measures.

The survey is being updated to reduce the questionnaire to 15 question. Additionally, W&I would like to modify the analysis and reporting tasks to include a summary dashboard report on the OMB Circular A-11 variables.
