**TITLE OF INFORMATION COLLECTION:** TEGE Customer Satisfaction Survey

**PURPOSE OF COLLECTION:**

The Internal Revenue Service (IRS) enlists a balanced measurement system consisting of business results, customer satisfaction, and employee satisfaction. This initiative is part of the Service-wide effort to maintain a system of balanced organizational performance measures mandated by the IRS Restructuring and Reform Act (RRA) of 1998. This is also a result of Executive Order 12862 that requires all government agencies to survey their customers.

This collection of information is necessary to enable IRS to garner customer feedback in an efficient, timely manner, in accordance with our commitment to improving service delivery. The information collected from our customers will help ensure that users have an effective, efficient, and satisfying experience with the IRS’s PPS Toll-free services. This feedback will provide insights into customer perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of services. These collections will allow for ongoing, collaborative and actionable communications between the IRS and its customers. It will also allow feedback to contribute directly to the improvement of program management.
