The purpose of this collection is to measure visitor satisfaction with the FA Comment Card Survey. Information collected at all 392 Taxpayer Assistance Center (TAC) and/or Virtual Service Delivery (VSD) sites will be used to provide meaningful feedback to managers and staff responsible for use in prioritizing feature and usability enhancements. The surveys will assist in assessing overall customer satisfaction and overall quality for balanced measures.

How do you plan to use what you learn?

Field Assistance Comment Card Survey

PURPOSE: Provide a brief description of the purpose of this collection and how it will be used. If this is part of a larger study or effort, please include this in your explanation.

The Internal Revenue Service (IRS) enlists a balanced measurement system consisting of business results, customer experience, and employee satisfaction. This initiative is part of the Service-wide effort to maintain a system of balanced, organizational performance measures mandated by the IRS Restructuring and Reform Act (RRA) of 1998. This is also a result of Executive Order 12862, which requires all government agencies to survey their customers and incorporate customer preferences in their process improvement efforts.

The IRS Balanced Measurement System rates the IRS, its managers and employees, on customer satisfaction, employee satisfaction, and business results. This balanced measurement system draws on direct customer feedback, including independent surveys of customers and an annual census survey of employees. The customer satisfaction portion of these performance standards necessitates the identification of W&I's customers and mechanism(s) gauging the level of satisfaction with interactions and services of the Internal Revenue Service. Further, Executive Order 12862 requires all government agencies to survey their customers and incorporate customer preferences in their process improvement efforts.

Field Assistance's mission is to enhance the taxpayer experiences by providing quality face-to-face assistance and facilitated self-assisted services that resolve tax issues and educate the taxpaying public. FA's vision is to provide the right service to the right taxpayer at the right time. The FA customer experience survey is conducted to incorporate their customer's perspective to improve service interactions
