

2021 Fruit Chemical Use Survey

United States Department of Agriculture
National Agricultural Statistics Service

YOUR PARTICIPATION IN THIS SURVEY IS IMPORTANT!

- A representative from USDA will contact you soon by phone to complete a survey questionnaire between October 2, 2021 through February 3, 2021.
- Our interviewer will ask you detailed questions about the types of pesticides you use on your fruit crops, and pest management practices.
- To make the interview process quicker, please have your spray records available.

Thank you for your participation! By responding, you represent and give voice to thousands of farmers like you across the nation.
