INSTRUCTIONS FOR COMPLETING FORM FNS 380-1, QUALITY CONTROL REVIEW SCHEDULE

GENERAL INFORMATION

The Quality Control Review Schedule (QCRS) is the data entry form to record the results of SNAP Quality Control reviews.

The schedule consists of seven sections:

- 1 - Review Summary
- 2 - Detailed Error Findings
- 3 - Household Characteristics
- 4 - Information on Each Household Member
- 5 - Income Identified by Household Member
- 6 - Reserved Coding
- 7 - Optional - For State Systems Only

All entries in the QCRS are dollar amounts, dates, or numeric codes.

Dates - Use six or eight-digit numbers as the entry requires. For example, October 3, 2003 would be coded:

1	0	0	3	2	0	0	3
---	---	---	---	---	---	---	---

The October sample month would be coded:

1	0	2	0	0	3
---	---	---	---	---	---

Dollar Amounts - Round all dollar amounts to the nearest dollar; leading zeros are not required. For example, \$165.00 is entered:

0	1	6	5
---	---	---	---

Not Applicable - If an item does not apply to the case reviewed, leave the applicable boxes blank:

--	--	--	--	--	--

Unknown - If an item is known to exist but the specific amount is not known, fill in all boxes for that item with 9's:

9	9	9	9
---	---	---	---

If no information is available or if the item does not apply to the household, leave the boxes blank. Do not enter zeros to indicate no information.

Stratum - States with stratified samples should submit to the FNS regional office a listing of the numeric codes utilized to identify stratum. Stratum codes are assigned by the State agency when the sample is stratified. If stratum codes are not used, leave blank or enter other identifying information at State option.

Local Agency Code - States must assign each SNAP local office and any call center unit with the ability to make eligibility determinations or redeterminations, a unique three-digit local agency code (LAC). The system requires a three-digit code.

The State may use Federal Information Processing Standards (FIPS) codes or use an alternative method to designate the local agency code. Once a State has selected a method, submit to the FNS regional office a listing of the local agencies and call center units and corresponding codes. Any updates to the LAC codes require a resubmission of the listing to FNS with the updates identified.

FIPS Codes - The National Institute of Standards and Technology has developed codes for classification of counties and county equivalents. These codes were devised by listing counties alphabetically and assigning sequentially odd integers; e.g., 001, 003, 005.

QUALITY CONTROL REVIEW SCHEDULE

- 2. Case Number** - Enter the number assigned by the local agency to the household that was certified and has been reviewed.
- 3. State code** - Enter the two digit State code from the following list of codes of National Institute of Standards and Technology.

State Codes - National Institute of Standards and Technology

4. **Local Agency Code** – Enter the three-digit numeric LAC that represents the SNAP local office or call center unit that finalized the most recent certification action.
5. **Sample Month and Year** - Enter the month and year for which the case eligibility and benefit level were reviewed.
6. **Stratum** - Enter the two-digit stratum codes if sampling is stratified. If not stratified enter a State optional code or leave blank.
7. **Disposition** - Enter one of the following codes:
 - 1 - Complete
 - 2 - Not subject to review
 - 3 - Incomplete
 - 4 - Case deselected

If codes 2, 3, or 4 are used, reviewers must also enter coded for items 9 in Section 1, 20-29 in Section 2, 46-53, in Section 4, and 68 and 70 (when applicable), in Section 6.

8. **Review Findings** - Enter one of the following codes:
 - 1 - Amount correct
 - 2 - Overissuance
 - 3 - Underissuance
 - 4 - Ineligible for not meeting conditions of eligibility (gross/net income tests, resources, citizenship, ineligible ABAWD, etc.)
 - 5 - Ineligible for non-compliance with a required process for issuing or continuing benefits [household never submitted an application, household participating with an expired certification, or household never submitted (or submitted an incomplete) mandatory report form]

Enter actual finding regardless of whether it is below the error threshold. Do not complete sections 4 and 5, if ineligible codes 4 or 5 are used.

9. **SNAP Allotment Under Review** - Enter the authorized amount of SNAP subject to review for the sample month.
10. **Error Amount** - Enter the dollar amount of any identified error. The dollar amount of the error is the difference between the benefits the State authorized and the benefits the State should have authorized regardless of the error threshold. Use the lower error amount from comparison one or comparison two.
 - For overissuance or underissuance errors, enter the actual error amount whether or not it exceeds the QC error tolerance threshold.
 - For ineligible errors, enter the full amount of the error.

11. Case Classification - Enter one of the following codes:

- 1 - Included in error rate calculation.
- 2 - Excluded from error rate calculation.
- 3 - Excluded from error rate calculation, as designated by FNS (e.g. demo project).

SECTION 2 - DETAILED ERROR FINDINGS

When a variance or variances exist for the final error determination, this section provides for the detailed coding of each variance identified during the QC review. If additional lines are needed to code error findings, attach an additional page. Since the information recorded in this section is the basis for corrective actions, the accuracy of the information is important. If more than one variance is identified, the variance that the agency believes is most significant in leading to the error should be listed first.

12. Element - Enter the appropriate element number of the review for each variance identified.

13. Nature codes - Enter the appropriate code for the nature of each variance.

The following provides the element and nature codes to be used in items 12 and 13.

These nature codes may be used in any element:

Nature code (97) - Change was not required to be reported by the household or acted upon by the State agency based on timeframes and reporting requirements.

Nature code (98) - Transcription or computation errors.

Nature code (99) - Use this nature code when 97,98, or none of the listed nature codes under an element apply to the error being recorded.

BASIC PROGRAM REQUIREMENTS - (100)

Element 150 - Household Composition

Note: Variances should be coded under this element if a person or persons are unreported or incorrectly reported, unprocessed or incorrectly processed, and these persons also have income, resources or deductible expenses, which must be considered in the error determination.

For example: the discovery of an unreported 62-year-old with earned income, a bank account, and medical expenses would be recorded under Element 150 (Household Composition), not Elements 211 (Bank Accounts or Cash on Hand), 311 (Wages and Salaries), and 365 (Medical Deduction).

Variances should not be coded under this Element for persons with characteristics that are specifically addressed under other 100 Series Elements (Student Status through Social Security Number). For example: the discovery of an eligible non-citizen in the household who was improperly excluded would be coded under Element 130 (Citizenship and Non-Citizen Status), not under Element 150 (Household Composition).

68. Timeliness of Application Processing (Expedited and 30-Day Requirement) -

A determination of timeliness of application processing is to be made for the most recent application which is for or prior to the sample month in the last 12 months. If there is more than one application in the last 12 months, measure timeliness for the most recent application. Only use this process to review an active case in which the most recent application was a new/initial application. If the most recent application was a recertification application, the case will not be used in the timelessness of application processing rate.

NOTE: QC policy does not write or develop timeliness of application processing review procedures. Please refer to SNAP policy guidance and staff with inquiries about the timeliness measure.

Timeliness of application processing according to Federal processing standards:

- A household entitled to expedited service must be provided the opportunity to participate within 7 days.
- Households not entitled to expedited service must be provided the opportunity to participate by 30th day following the date of application.

An opportunity to participate consists of providing households with an active electronic benefit transaction (EBT) card and personal identifying number (PIN), benefits have been posted to the household's EBT account and are available for spending.

A case that meets the applicable Federal processing standard is coded 1 - Timely. A case that fails to meet the applicable Federal processing standard is coded 2 or - Not timely. For example, cases that were delayed due to a late determination for expedited service, whether the State agency failed to properly screen the case or the client provided incorrect information, the reviewer should use code 2 - Not timely: 7-day time frame.

The following cases should be coded 4 - Other: cases where no new application was filed within the last 12 months prior to the sample month, the most recent application was a recertification (including those filed within 30 days after the certification period expired), and cases in which the new application was properly pended for incomplete verification. (Cases in which a new application was improperly pended will be coded 3 - Not timely.)

If after a thorough review of case circumstances and records there is no documentation, application or other information to determine timeliness, the case should be coded 4. For cases with this problem, every effort should be made to determine the timeliness of the case before deciding to use the "Other" code.

Please indicate the appropriate code:

- 1 - Timely
- 2 - Not timely: 7-day time frame
- 3 - Not timely: 30-day time frame.
- 4 - Other

69. QC Interview - Enter the appropriate code from the following:

- 1 - Telephonic personal interview with household
- 2 - No Interview with household - Failure or Refusal to Cooperate OR Not Subject to Review
- 3 - No Interview with household (Ineligible determination prior to interview)
- 4 - Alaska - remote area - no interview or telephone interview
- 5 - Person interviewed in own home
- 6 - Person interviewed in local office
- 7 - Person interviewed in mutually agreed upon location
- 8 - Video interview - person interviewed in own home
- 9 - Video interview - person interviewed in local office
- 0 - Video interview - person interviewed in mutually agreed upon location

70. Timeliness of Recertification Processing - A determination of timelessness of application recertification processing is to be made for the most recent application which is for or prior to the sample month in the last 12 months. If there is more than one application in the last 12 months, measure timeliness for the most recent application. Only use this process to review an active case in which the most recent application was a recertification. If there is more than one **recertification** application, including applications submitted within 30 days after the end of the certification period. If the most recent application was a new/initial application, the case will not be used in the timelessness of recertification rate.

NOTE: QC policy does not write or develop timeliness of recertification processing review procedures. Please refer to SNAP policy guidance and staff with inquiries about the timeliness measure.

Cases where benefits were issued by the household's normal issuance date must be coded 01-Timely. Cases where benefit were issued after the household's normal issuance date must be evaluated for cause of the delay and coded accordingly.

If multiple causes are identified, code the not timely agency or client caused delay that most appropriately reflects the first cause of the delay. For example, if the agency sent out the Notice of Expiration (NOE) late and household applied for recertification after the 15th of the month, the reviewer should use code 11- Not Timely- Agency Caused.

Indicate the appropriate code for 70:

01 - Timely

Not Timely - Agency Caused

11 - Agency failed to contact or did not contact client timely. This would include situations in which the agency failed to contact or did not contact client timely with notice of expiration (NOE), with recertification packet, to schedule interview, or to request verification.

12 - Agency lost or misfiled the verification or application for recertification. This would include any lost or misfiled application completed or otherwise.

13 - Agency failed to act on completed recertification application. This would include any completed recertification application that a caseworker failed to act on for whatever reason.

Not Timely - Client Caused

- 24 - Client did not file the recertification application by the 15th of the last month of the certification period.
- 25 - Client missed the first scheduled interview.
- 26 - Client did not return the required verification timely.
- 27 - Other client caused delay.

Neither timely nor untimely

- 30 - Benefits issued outside the certification period.
- 40 - Not yet due for recertification.
- 50 - No recertification within the 12 months prior to the sample month.

- 71. Allotment Test** - Enter the appropriate code that reflects which of the Allotment Tests (Comparison I or Comparison II) has been recorded in Item #10. Enter one of the following codes:
- 1 - Comparison I recorded, Comparison II was not needed
 - 2 - Did Comparison II, recorded Comparison I
 - 3 - Did Comparison II, recorded Comparison II
 - 4 - Comparison I equaled Comparison II
 - 5 - Case ineligible, no Comparison I or Comparison II needed

- 72. Household Zip Code** - Enter the household's five-digit zip code for their physical address. If a homeless household receives mail, the zip code should be for the location mail is received. QC cases in which the homeless household does not have a mailing address should use the zip code for the household's last known location. If the reviewer is unable to determine a homeless household's 'last known location', code 99999.

SECTION 7 - OPTIONAL FOR STATE USE

There are 4 lines of spaces available to the State to code additional information.
