Why do we need your Social Security Number?

We request your Social Security Number (SSN) and Date of Birth (DoB) during the account creation process only to authenticate who you are. The information you provide is compared with your information in the Marine Corps Total Force Structure (MCTFS) system if you are an active duty Marine or Marine Civilian in MCTFS, or this information is compared with your information in the Defense Manpower Data Center (DMDC) for all other service members, DOD civilians, and dependents. The information is used solely to verify that you are authorized to have a MarineNet account. This data is already in the MCTFS and/or DMDC systems. The Commandant of the Marine Corps (MCTFS) and the Secretary of Defense (DMDC) are both authorized to use the data for verification purposes. Your SSN will be stored with your account when it is created, but it is not shared with any other agency or organization, it is not part of your username, and it is used only as a discriminator during multiple identity instances.

Is it safe?

Security during registration is ensured using a 128-bit Secure Socket Layer (SSL) connection. This is the highest industry standard and establishes an encrypted session between your computer and MarineNet. We use the same technology other major companies operating on the World Wide Web (WWW) use to protect personal information and guard against identity theft. Look for the little yellow padlock at the bottom of your browser window to ensure you have established a secure connection.

- 5) Users who can't be verified in DEERS are automatically directed to an extended registration tool and will be required to enter additional information, including identifying a sponsor of O-4 or GS-12 rank or above, to be considered for an account.
