

**DATE:** July 19, 2023  
**TO:** Dan Cline, OMB Clearance Officer  
**FROM:** Samantha Miller, HRSA Information Collection Desk Officer

---

**Request:** The Health Resources and Services Administration (HRSA) requests approval for a change to the Substance Use Disorder Treatment and Recovery (STAR) Loan Repayment Program (LRP) (OMB 0906-0058 expiration date 07/31/2026)

**Purpose:** The purpose of this request is to make a change the Substance Use Disorder Treatment and Recovery (STAR) Loan Repayment Program (LRP) to better reflect the addition of the Pediatric Specialty Loan Repayment Program application. Specifically, HRSA would like to request that the name of the ICR be changed from the Substance Use Disorder Treatment and Recovery (STAR) Loan Repayment Program (LRP) ICR to the **Substance Use Disorder Treatment and Recovery (STAR) Loan Repayment Program (LRP) and the Pediatric Specialty Loan Repayment Program**. This change aligns with the title used in both the [60 Day](#) and [30 day](#) Federal Register Notices. HRSA is not requesting any changes to the instruments used. As a result, HRSA is submitting the same instruments as were submitted with the original submission.

**Changes:** The only change that HRSA is requesting is to change the name of the title of this collection from the Substance Use Disorder Treatment and Recovery (STAR) Loan Repayment Program (LRP) ICR to Substance Use Disorder Treatment and Recovery (STAR) Loan Repayment Program (LRP) and the Pediatric Specialty Loan Repayment Program ICR. HRSA requests that this change be reflected in a revised Notice of Action. This proposed change does not substantially change the estimated burden for either respondents, or the Federal government.

**Time Sensitivity:** The data collection changes must be completed in a timely manner to ensure that the data collection schedule will not experience significant delay. Approval of these changes is requested by July 31, 2023, so that HRSA can update its publicly facing website to include this updated name.
