

Burden Disclosure Statement: Public reporting burden for this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0648) Do not return the completed form to this address.

We would appreciate your opinions on the Human Subjects Clinical Trials Information (HSCTI) form and related review criteria. The HSCTI form includes information such as human subjects research, inclusion enrollment, clinical research and/or trials, study population characteristics, protection and monitoring plans, and protocol synopsis. Your identity will be kept private and only aggregated responses will be used in our reports.

1. In general, how often does information in the HSCTI form contribute to your evaluation of applications in the following areas?

	Always	Most of the time	Sometimes	Rarely	Never	Don't know/it depends
Importance of the science (i.e. significance)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Feasibility and rigor (i.e. approach and innovation)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Investigator and environment	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

2. The information provided in the HSCTI form is necessary to assess the applications for their impact and scientific merit.

- Strongly agree
- Agree
- Neutral
- Disagree
- Strongly disagree

3. How often does information in the HSCTI form significantly influence or change your overall impact score?

- All of the time
- Most of the time
- Sometimes
- Seldom
- Hardly ever
- Never

4. How much time, on average, do you typically spend reviewing information in the HSCTI form?

- Less than 30 minutes
- 30 min. to 1 hour
- 1-2 hours
- More than 2 hours

5. In the last year, approximately how many clinical trial applications have you reviewed (please use numeric format)?

6. Approximately, what percent of the clinical trials applications that you review are made up of the following types?

	0%	1-30%	31-70%	71-100%
Basic Experimental (BESH)	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Mechanistic	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Interventional	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

7. Please share your opinions about the HSCTI form and how it impacts the quality of your review.

Please click on the 'Next' button below to send your responses and complete the survey.
