

Research Training and Career Development

The NIDCD recognizes the importance of research training and career development opportunities to prepare a talented and diverse biomedical research workforce focused on communication disorders. The NIDCD supports fellowship, career development, and mentorship opportunities at universities and institutions nationwide (extramural training) as well as at the NIDCD laboratories and clinics in Bethesda, Maryland (intramural training). International research training opportunities are also available.

Data Safeguarding and Privacy

All uses of web measurement and customization technologies comply with existing policies with respect to privacy and data safeguarding standards. Information technology (IT) systems owned and operated by the NIH are assessed using [Privacy Impact Assessments \(PIAs\)](#) posted for public view on the Department of Health and Human Services (HHS) website. The NIH conducts and publishes a PIA for each use of a third-party website and application (TPWA) as they may have a different functionality or practice. TPWA PIAs are posted for public view on the HHS website.

Groups of records that contain information about an individual and are designed to be retrieved by the name or other personal identifier linked to the individual are covered by the Privacy Act of 1974, as amended (5 U.S.C. Section 552a). For these records, the NIH Systems of Record Notices are published in the Federal Register and posted on the [NIH Office of the Senior Official for Privacy](#) website. For more information, please refer to the [NIH Web Privacy Notice](#) posted on the NIH.gov website.

Data Retention and Access Limits

The NIDCD will retain data collected using the above technologies long enough to achieve the specified objective for which they were collected. The data generated from these activities fall under the National Archives and Records Administration (NARA) General Records Schedule (GRS) 20-item1c "Electronic Records," and will be handled per the requirements of that schedule.

Survey Disclaimer

OMB#: 0925-0648 Exp. Date 6/30/2024

Public reporting burden for this collection of information is estimated to average two minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0648).

Social Media and Third-Party Websites

Links to Non-Federal Websites

Our website has links to many other organizations. Once you follow a link to any other site, you are subject to its privacy policy.

The NIDCD is incorporating use of this graphic notice () to indicate that you are leaving the NIDCD (www.nidcd.nih.gov) website and going to a non-federal website. Additional information about NIDCD's external link disclaimer includes the following:

- The external website provides additional information that is consistent with the intended purpose of the NIDCD website.
- The NIDCD cannot attest to the accuracy of a non-federal website.
- Linking to a non-federal site does not constitute an endorsement by the NIDCD or any of its employees of the sponsors, information, or products presented on the destination site.
- You will be subject to the destination site's privacy policy when you follow the link.

For more information on exit notifications and disclaimers for non-federal websites, the [HHS Web standards](#) may be helpful.

Third-party websites and applications are web-based technologies that are not exclusively operated or controlled by the NIDCD, such as non-Government-hosted applications and those embedded on an NIDCD web page that could cause personally identifiable information to become available or accessible to the NIDCD, regardless of whether NIDCD solicits or collects it.

As part of the [Open Government Directive](#), the NIDCD uses new technologies and social media options to communicate and interact with citizens. These sites and applications include popular social networking and media sites such as Facebook, Twitter, and YouTube. Below, we outline the applications the NIDCD uses and their purposes. If any applications collect your private information, we describe how the NIDCD protects your information.
