

## NLM/NEH Programming Survey Email Solicitation

Greetings from the History of Medicine Division of the National Library of Medicine (NLM)! Thank you in advance for a few moments of your valuable time.

I am reaching out because you participated in an NLM co-sponsored symposium or seminar between 2013 and 2018. My colleagues and I would greatly appreciate if you would complete a brief survey [linked] about the long-term impacts of that program on your professional development. This survey is voluntary and anonymous, and it should take no more than 5 minutes to complete. Your responses will be valuable in evaluating the long-term impact of NLM's programming and learning how we can improve future activities.

Information gathered through this survey may be reported and shared with our partner organizations for partnership and program improvement purposes, and such sharing will be anonymous and cannot be connected to you. If you do voluntarily provide personally identifiable information, this information will be redacted from your survey responses for analysis and reporting.

If you are interested in participating, please click here [linked] to begin the survey, or copy and paste the following link into your browser:

If you have any questions about this survey, please contact me directly at [jeffrey.reznick@nih.gov](mailto:jeffrey.reznick@nih.gov). Thank you for participating!

Sincerely,

Jeff
