

Dear Colleagues,

Thank you for your time and commitment to make the NIH scientific workshop on expanding the evidence base in gender-affirming care for transgender & gender-diverse populations.

To help NIH with future scientific workshop planning, we would like your feedback. Would you please take 5 minutes to participate in the post-workshop assessment to provide input:

<https://survey.alchemer.com/s3/7220761/>?

The assessment is voluntary, and your feedback will help improve future work. **Responses are due by April 14, 2023.**

If you experience difficulties accessing the assessment, please contact Mark Dennis (mdennis@scgcorp.com) or if you have any questions please contact Dr. Irene Avila (irene.avila@nih.gov).

Best,

Karen
