

NIH Office of Dietary Supplements Annual Practicum

To improve future ODS Practicums, we are interested in obtaining your feedback. For the following set of questions, please provide your feedback, taking the entire practicum experience into consideration. Please take a few minutes to complete this survey to let us know what you think about this practicum. Please note that all questions are optional, and you may exit the survey at any time. **Select one choice per statement.**

Public reporting burden for this collection of information is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch; 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0648). Do not return the completed form to this address.

2. Please rate the degree to which your knowledge about the roles of the NIH's Office of Dietary Supplements (research), the Food and Drug Administration (regulatory authority), and the Federal Trade Commission (regulatory authority) increased:

- Greatly increased
- Increased
- Remained the same

3. Were the topics covered relevant to your work or research?

- Very relevant
- Somewhat relevant
- Not very relevant
- Not at all relevant

4. How likely are you to incorporate information learned from the Practicum into your coursework or practice?

- Very likely
- Somewhat likely
- Not at all likely

5. Please indicate the top 3 presentations, in rank order of importance, that you found most applicable to your practice. 1 is the most applicable, 2 is the second most applicable, 3 is the third most applicable.

Available Choices:
Alexandra Cowan, PhD, MS Overview of Dietary Supplement Use in the US
Johanna Dwyer, PhD, RD Motivations for Dietary Supplement Use
Gerie Voss, J.D. What the U.S. Food and Drug Administration (FDA) Does
Mary Johnson J.D. What the Federal Trade Commission (FTC) Does
Joe Betz, PhD Doing the Studies: The Different Types and What They Tell Us
Howard Sesso, ScD, MPH Efficacy and Effectiveness: Lines of Evidence in Supplement Research
Mary Hardy, MD Safety: The Concept of Safety, its Measurement and Reporting
Adam Kuszak, PhD Analytical Characterization of Dietary Supplements: Methods, Standards, and Quality Assurance
