Public reporting burden for this collection of information is estimated to average 3 minutes per response...
Send comments regarding this burden estimate or any other aspect of this collection of information...

The Alcohol Research and Current Reviews (ARCR) an open-access, interdisciplinary journal with the mission of providing in-depth reviews spanning the field of alcohol research. Areas of interest include the effects of alcohol across the lifespan on health, function, and well-being in addition to basic science, genetics, epidemiology, prevention, diagnosis, and treatment of alcohol-related conditions.

Please note, this survey is voluntary and all responses will remain anonymous. The estimated time to complete the survey is approximately 3 minutes, and you can choose to answer as many or as few questions as you would like.
