CCDF 101: CCDF Fundamentals New Administrators' Self-Assessment Tool

Purpose

The CCDF 101: CCDF Fundamentals CCDF 101: CCDF Fundamentals New Administrators' Training Cohort is an intentional effort to offer a gradual learning experience focused on essential requirements, knowledge, and skills for new Tribal CCDF Administrators. The objective of the CCDF 101: CCDF Fundamentals New Administrators' Training Cohort is to grow and nurture new leadership and management skills through a small-group approach and a peer-supportive network.

The *CCDF 101: CCDF Fundamentals New Administrators' Training Cohort Self-Assessment Tool* highlights a key component of the New Administrators' cohort experience: management systems. This tool was designed to provide New Administrators with a way to reflect upon these components and assess growth over the course of the cohort.

New Administrators will complete the self-assessment at the beginning and at the conclusion of the six-month cohort. The assessment at the beginning of the cohort will serve as a baseline and provide an opportunity for New Administrators to consider their current capacity and areas for development. At the end of the cohort, the self- assessment will provide an opportunity to reflect on progress and help inform next steps for continued growth.

The self-assessment will serve the additional purpose of helping the Tribal Child Care Capacity Building Center (TCBC) understand the impact that the New Administrators' Training has on nurturing leadership capabilities and management skills over the course of the six-month cohort.

<u>**All responses provided on this self-assessment are private.**</u> Data may be aggregated to assess growth of the cohort overall, but individual responses will remain private.

Instructions

For each section, review the relevant capabilities and skills and think about your current understanding, experience, and level of comfort with each. Consider your ability to apply the capabilities and skills to

lead, manage, and implement your CCDF program and determine which implementation phase you are in:

Implementation Phases[1]

1. **No action**: I have not considered this skill or capability as it applies to my role and leading, managing, and implementing my CCDF program.

2. **Exploring**: I have considered this skill or capability as it applies to my role and my CCDF program. I am assessing my readiness to apply this skill and the ways that I can apply it to lead, manage, and implement my CCDF program.

3. **Developing:** I am planning and preparing to use this skill or capability in my role and my CCDF program. I am making arrangements and acquiring resources that I need to apply this skill or capability to lead, manage, and implement my CCDF program.

4. **Initial Implementation**: I have started to apply this skill or capability in my role and am using it to lead, manage, and implement my CCDF program. I am assessing my approach to applying this skill or capability and identifying ways to improve its application.

5. **Full Implementation**: I am consistently applying this skill or capability in my role and my CCDF program. This skill or capability is embedded as part of my ongoing leadership, management, and implementation of the CCDF program.

At the end of the assessment, please use your responses to reflect on your areas of strength, areas for improvement, and leadership and management goals for the New Administrators' Training.

Name:_____ Date:_____

Section I: Management Systems and Skills

Please consider the following management systems and associated skills and select the implementation phase that most accurately represents your current level of capacity for each system.

System and Associated Skills	No Action	Exploring	Developing	Initial Implementation	Full Implementation
System: Leadership and Governance **Skills Include:** ◆ Planning strategically ◆ Making informed decisions ◆ Supporting teams ◆ Defining roles and responsibilities ◆ Fostering collective leadership ◆ Communicating with leadership ◆ Mobilizing stakeholders	**1**	**2**	**3**	**4**	**5**
System: Direct Services **Skills Include:** ◆ Planning and making informed decisions ◆ Determining processes to ensure that families have equal access to stable child care financial assistance ◆ Communicating with parents, providers, and families	1	2	3	4	5

System and Associated Skills	No Action	Exploring	Developing	Initial Implementation	Full Implementation
System: Provider Settings **Skills Include:** ◆ Determining the needs of the community ◆ Supporting each provider type served by their CCDF program ◆ Ensuring appropriate and high quality care ◆ Ensuring the health and safety requirements of providers are met ◆ Providing culturally and linguistically appropriate training and professional development to providers	1	2	3	4	5
System: Health and Safety Monitoring **Skills Include:** ◆ Considering if appropriate health and safety standards are in place ◆ Ensuring providers, staff, and monitoring staff are adequately trained ◆ Ensuring compliance with health and safety standards ◆ Utilizing information gathered through monitoring to increase the health and safety of children in case	1	2	3	4	5

System and Associated Skills	No Action	Exploring	Developing	Initial Implementation	Full Implementation
System: Disaster Preparedness and Response **Skills Include:** ◆ Developing and implementing a disaster preparedness and response plan for the Tribal services area ◆ Consider how the needs of the children, including the need for safe child care, before, during, and after a state of emergency is declared is maintained ◆ Building partnerships through cooperation, coordination, and collaboration ◆ Working with Tribal leaders ◆ Effectively engaging internal and external stakeholders	1	2	3	4	5

System and Associated Skills	No Action	Exploring	Developing	Initial Implementation	Full Implementation
System: Program Administration and Data and Evaluation **Skills Include:**	1	2	3	4	5
◆ Assessing capabilities of current monitoring system and identifying areas of improvement					
◆ Incorporating monitoring results into ongoing program operations, planning, and improvement					
◆ Ensuring timeliness of ongoing monitoring					
◆ Engaging and training staff regarding monitoring requirements and processes					
◆ Sharing results of monitoring with staff and leadership					
◆ Using data to inform program implementation					
◆ Identifying data sources					
◆ Selecting data collection methods					
◆ Managing and analyzing data					
◆ Using data to assess impact and tell your program's story					

System and Associated Skills	No Action	Exploring	Developing	Initial Implementation	Full Implementation
System: Fiscal Management **Skills Include:** ◆ Developing and implementing financial management systems ◆ Engaging leadership and stakeholders in fiscal management ◆ Developing and implementing budgeting processes ◆ Identifying areas of strength and improvement in your program's fiscal management approach	1	2	3	4	5
System: Community Needs Assessment **Skills Include:** ◆ Gathering information about the needs of providers, children, families, and the community ◆ Engaging partners in the needs assessment process ◆ Examining information to determine strengths and needs ◆ Identifying priorities ◆ Designing services to align with strengths and needs	1	2	3	4	5

System and Associated Skills	No Action	Exploring	Developing	Initial Implementation	Full Implementation
System: Training and Professional Development **Skills Include:**	1	2	3	4	5
◆ Assessing current approaches for orientation, training, and professional development					
◆ Creating a coordinated approach to training and professional development					
◆ Developing professional development plans and goals for staff					
◆ Aligning professional development plans to program goals					
◆ Identifying and supporting staff strengths and areas of improvement					
◆ Using reflective supervision					
◆ Supporting staff to move program from compliance to excellence					

System and Associated Skills	No Action	Exploring	Developing	Initial Implementation	Full Implementation
System: Communication and Information Systems **Skills Include:**	1	2	3	4	5
◆ Communicating with internal and external stakeholders					
◆ Designing, implementing, and supporting communications policies and procedures					
◆ Utilizing culturally and linguistically responsive communications					
◆ Recruiting and engaging partners to improve program functioning					
◆ Communicating (internally and externally) regarding the CCDF final rule					

System and Associated Skills	No Action	Exploring	Developing	Initial Implementation	Full Implementation
System: Record Keeping and Reporting **Skills Include:** ◆ Managing program records ◆ Overseeing program reports ◆ Using technology to support record keeping and reporting ◆ Establishing, implementing, and supporting policies and procedures for record keeping and reporting ◆ Communicating program information to leadership ◆ Generating reports on program progress and services in real-time	1	2	3	4	5
System: Continuous Quality Improvement **Skills Include:** ◆ Identify goals for quality improvement ◆ Supporting continuous quality improvement	1	2	3	4	5

System and Associated Skills	No Action	Exploring	Developing	Initial Implementation	Full Implementation
System: Human Resources **Skills Include:**	1	2	3	4	5
◆ Developing an organizational structure to support program staff, goals, and services					
◆ Establishing screening, hiring and onboarding processes, including criminal background checks					
◆ Utilizing culturally responsive hiring and onboarding practices					
◆ Ensuring staff members have appropriate credentials					
◆ Coordinating between program staff and human resources					

Notes: Use this area to record your rationale, comments, or questions regarding your responses above.

Reflection

◆ What management skills or capabilities stand out as areas of strength for you?

◆ What areas of improvement have you identified?

◆ Based on your self-assessment, what management goals do you have for yourself as a New Administrator?
