

**Request for Approval under the clearance of the “Generic for ACF Program
Office Monitoring Activities” Office of Management and Budget (OMB)
Control Number: 0970-0558**

TITLE OF INFORMATION COLLECTION: Office of Refugee Resettlement (ORR)
Refugee Microenterprise Development (MED) Program Case File Requirements

PURPOSE: The Administration for Children and Families (ACF) Office of Refugee Resettlement (ORR) requires Refugee Microenterprise Development (MED) Program funding recipients to keep records of documents related to grant spending and performance of program-related activities. This specific record keeping requirement allows ORR to specify the records that MED Program funding recipients must keep. Through monitoring activities, ORR will ensure that the necessary records are kept by funding recipients.

This information collection aligns with the overarching generic for monitoring activities, which specifically states that the information collected will allow ACF to:

- Monitor compliance with federal practice, guidelines, and requirements,
- Enable a quick understanding of and remediation to national, regional, and/or site-specific issues,
- Provide support and/or Technical Assistance (TA), as needed,
- Ensure a flexible and responsive oversight of federal funds, and
- Document promising practices, innovative services, and program-related strengths.

The proposed uses of the data also align with the overarching generic, which specifies that program offices will use information collected under this generic clearance to monitor funding recipient activities, including assessing progress towards meeting NOFO objectives, confirming compliance with grant requirements, and verifying that programs/projects initiated by MED Program grantees are carried out in a manner consistent with their approved project goals/objectives, and in a manner consistent with ACF’s expectations.

This is a record keeping requirement; information will not be collected by ORR.
