All business written under the Longshore and Harbor Workers' Compensation Act, and its extensions, is subject to a security deposit. In conjunction with this application, any insurance carrier seeking to be exempt from depositing a security with the Department of Labor must provide documentation that demonstrates

that they have been awarded the highest financial ratings for both the current rating year and the immediately preceding year by the following rating organizations: the A. M. Best Company; Standard & Poor's; and Fitch Ratings. NOTE: The highest available rating by the A. M. Best Company is "A++", Standard & Poors is "AAA" and Fitch Ratings is "AAA".

In any state where the state guarantee, or analogous, fund will not fully protect all of the Longshore obligations of an insolvent carrier, insurance carriers will be required to post security to secure these obligations. Security must be in the form of a surety bond issued by a surety company holding a Certificate of Authority from the U.S. Treasury Department as acceptable sureties on federal bonds, or a deposit of fully guaranteed negotiable securities with a Federal Reserve Bank, or a bank issued letter of credit from an approved bank.

This request will also be considered for waiver for all business written through the National Reinsurance Pool operated by the National Council on Compensation Insurance or any other assigned risk pool providing full protection for Longshore Act benefits.

Finally, this waiver request will also be considered on receipt of supporting documentation demonstrating that the company is a state insurance fund or agency of the state government with the full faith and credit of the state.
