

States’ Use of Bipartisan Safer Communities Act Stronger Connections (BSCA-SC) Funds: Survey of State BSCA-SC Grant Coordinators

Information For Reviewers

1. The survey uses “skip logic” to determine which items to present to each individual respondent. The skip logic depends on:
 - Sample variables, which hold data about the SEA known before the survey begins. For example, “STATE” holds the two-letter acronym for the state, such as “MD” for Maryland.
 - Response variables, which hold data based on the answers that a respondent gives to an item. For example, AWDBYREFDATE is based on the pattern of responses in Section A.
 - Survey items may include pre-filled values based on these sample variables or response variables. Green text indicates these variables.
2. For certain items with a list of response options, the survey software will present response options in a random order to each respondent. This prevents response biases such as the tendency for respondents to prefer items listed near the top or bottom of a list.
3. Text in blue, Arial Narrow font indicates on-screen prompts or instructions to the respondent.
4. Online each survey item will appear on its own screen with navigation buttons at the bottom that allow the respondent to move to the next item or go back to a previous item.
5. If a respondent leaves an item blank, the survey will present a standard on-screen prompt asking the respondent to enter a response. Respondents may still choose to leave the item blank and continue to the next item. Non-standard “if missing” prompts are indicated below.
6. Question numbering is non-consecutive (for example, Questions A1-A2, followed by A12, A22, etcetera, with no items numbered A3-A11 or A13-A21). **Question numbers will not appear in the online survey but are used for programming purposes only.**

Sample and response variables used in the survey

| Name | Type | Definition |
|----------|--------|--|
| STATE | Sample | Common abbreviation for the name of the state, such as “MD” for Maryland or “DC” for District of Columbia. |
| STAMOUNT | Sample | The dollar amount of the state's total BSCA-SC allocation. Used in validation checks on survey responses in Section A. |
| REFDATE | Sample | A single reference date used to align responses to a common date when respondents may complete the survey at different times during the survey field period. For example, if the survey launches December 5, 2023, the REFDATE might be set to December 1, 2023. |

REVIEWERS, PLEASE NOTE THE FOLLOWING:

When programmed for online administration, a given state respondent will receive only a subset of the survey questions below based on their responses.

For example,

SEAs that have awarded some BSCA-SC subgrants by “REFDATE” (definition below), will see

- Items A2-A61, A80-A80a
- Items in Section B (the number of items depends on answers to items in this section)
- C1-C5a, C17
- Items in Section D.

SEAs that have NOT awarded any BSCA-SC subgrants by REFDATE will see

- Items A70a-A80a
- Items in Section B (the number of items depends on answers to items in this section)
- C10-C15a (or C10-C14 and C16, C16a), C17
- Items in Section D.

Welcome

*We are asking you to complete a short survey about **STATE's** implementation of its Bipartisan Safer Communities Act Stronger Connections (BSCA-SC) grant program. The survey should take about **20 minutes** to complete.*

*Please complete the survey by **[CLOSINGDATE]**.*

The information collected will help the U.S. Department of Education, Congress, and the public understand how states have begun using BSCA-SC grant funds to promote safe, healthy, and supportive learning environments for students.

*Because BSCA-SC funds were distributed through the Title IV-A program, we request your participation in this survey. However, **if a different individual in your state educational agency coordinates BSCA-SC grant activities**, please ask that individual to complete this survey using the unique survey link you received.*

The U.S. Department of Education is sponsoring this study and has hired Abt Associates to conduct this survey. This survey collects information on 1) how states have begun awarding BSCA-SC subgrants, 2) how states have defined local educational agencies (LEAs) as “high-need,” 3) what types of activities states wanted LEAs to prioritize with their BSCA-SC subgrants, and 4) the challenges states may have encountered in implementing BSCA-SC grant-related activities.

Your participation is very important to ensure that all states are represented in the study. As you know, states that receive BSCA-SC funds are expected to cooperate with Department evaluations under Education Department General Administrative Regulations (EDGAR) (34 C.F.R. § 76.591).

Thank you in advance for your cooperation and participation in this important study. If you have any questions, please feel free to contact us at SSAE_Study@abtassoc.com

Instructions

The survey will automatically save your answers as you enter them. You may pause and return to the survey as many times as needed by clicking the link to resume with the last question you answered. When you have finished, you may click the final submit button to complete the survey.

As you move through the survey, please try to answer each question. Your answers to each question affect which questions you see next. If you leave a question blank, the survey will display a warning asking you for a response.

To complete the survey, it may be useful to have the following information ready:

- Total amount of BSCA-SC funding [STATE] has awarded to local educational agencies (LEAs)
- When [STATE] awarded BSCA-SC subgrants to LEAs, or when [STATE] expects to award BSCA-SC subgrants
- Number of LEAs that applied for a BSCA-SC subgrant and the number that were awarded a subgrant
- [STATE]'s definition of "high-need" LEAs used to award BSCA-SC subgrants
- [STATE]'s priorities for how districts should use BSCA-SC subgrant funds
- Application materials, FAQs, scoring criteria, or other materials for LEAs to apply for a BSCA-SC subgrant

The survey includes the following sections:

- Section A. Initial BSCA-SC Subgrant Awards to LEAs
- Section B. SEA Procedures For Awarding BSCA-SC Subgrants
- Section C. Prioritizing LEA Use of BSCA-SC Funding
- Section D. Summing Up: Challenges Carrying Out BSCA-SC Grant-Related Activities

Section A: Initial BSCA-SC Subgrant Awards to LEAs

Questions in this section ask about the BSCA Stronger Connections (“BSCA-SC”) subgrants that the STATE SEA has awarded to local education agencies (LEAs) so far, or about the STATE SEA's plans to award subgrants.

In this survey, to “award” a subgrant means to notify an LEA that the SEA has selected the LEA to receive a subgrant, even if an SEA may not release subgrant funding until sometime after this award notification.

A1. During each of the following time periods, did the STATE SEA award[□] any BSCA-SC subgrants to LEAs?

Include any subgrants awarded during the dates shown even if the LEAs did not receive their subgrant funds until later.

Display mouseover text for □ symbol: To award a subgrant means to notify an LEA that the SEA had selected the LEA to receive a subgrant.

Check one in each row:
