| <p>The Integrated Postsecondary Education Data System (IPEDS) is a web-based data collection system designed to collect basic data from all postsecondary institutions in the United States and the other jurisdictions. IPEDS enables the National Center for Education Statistics (NCES) to report on key dimensions of postsecondary education such as student enrollment, degrees and other awards earned, tuition and fees, average net price, student financial aid, graduation rates, revenues and expenditures, faculty salaries, staff employed, and information on academic libraries. The IPEDS web-based data collection system was implemented in 2000-01 and collects basic data from approximately 6,600 postsecondary institutions in the United States and the other jurisdictions that are eligible to participate in Title IV Federal financial aid programs. All Title IV institutions are required to respond to IPEDS (Section 490 of the Higher Education Amendments of 1992 (HEA, P.L. 102-325)). IPEDS allows other (non-title IV) institutions to participate on a voluntary basis. Approximately 200 institutions elect to respond. IPEDS data are available to the public through the IPEDS website.</p> <p>IPEDS 2022-23 through 2024-25 annual data collection was approved by the Office of Management and Budget (OMB) in August 2022 (OMB# 1850-0582 v.30).</p> <p>This request is to make changes in IPEDS data collection materials to clarify online instructions; to update frequently asked questions and glossary terms; and to provide updated communications for the 2023-24 collection, indicating that there are no significant changes to the 2023-24 collection. This request does not introduce any changes to respondent burden or the cost to the federal government.</p> |               |   |         |
