

DATES: The meetings will be held on March 21, July 11, and October 10, 2024, between 9 a.m.–2 p.m. eastern time. Request to attend the meeting virtually must be received by March 13, July 2, and October 2, 2024. Request for accommodations for a disability must be received by March 13, July 2, and October 2, 2024. Written materials requested to be reviewed by NAC Members before the meeting must be received no later than March 13, July 2, and October 2, 2024.

ADDRESSES: The meetings will be held at the Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591, with a virtual option. Virtual meeting information will be provided on the NAC internet website at least one week in advance of the meeting. Information on the NAC, including copies of previous meeting minutes, is available on the NAC internet website at https://www.faa.gov/about/office_org/headquarters_offices/ang/nac/. Members of the public who wish to observe the meeting virtually or in person must send the required information listed in the **SUPPLEMENTARY INFORMATION** section to *9-AWA-ANG-NACRegistration@faa.gov*.

FOR FURTHER INFORMATION CONTACT: Kimberly Noonan, NAC Coordinator, U.S. Department of Transportation, at *Kimberly.Noonan@faa.gov* or 202–267–3760. Any requests or questions not regarding attendance registration should be sent to the person listed in this section.

SUPPLEMENTARY INFORMATION:

I. Background

The Secretary of Transportation established the NAC under agency authority in accordance with the provisions of the Federal Advisory Committee Act, as amended, Public Law 92–463, 5 U.S.C. ch. 10, to provide independent advice and recommendations to the FAA and to respond to specific taskings received directly from the FAA. The NAC recommends consensus-driven advice for FAA consideration relating to Air Traffic Management System modernization.

II. Agenda

At the meeting, the agenda will cover the following topics:

- NAC Chair’s Report
- FAA Report
- NAC Subcommittee Chair’s Report
- Risk and Mitigations update for the following focus areas: Data Communications, Performance Based Navigation, Surface and Data Sharing, and Northeast Corridor

- NAC Tasking 23–2: National Airspace System (NAS) Airspace Efficiencies
- NAC Chair Closing Comments

The detailed agenda will be posted on the NAC internet website at least one week in advance of the meeting.

III. Public Participation

The meeting is open to the public. Members of the public who wish to attend are asked to register via email by submitting their full legal name, country of citizenship, contact information (telephone number and email address), and name of their industry association or applicable affiliation, and if they would like to attend the meeting in person or virtually. Please email this information to the email address listed in the **ADDRESSES** section. When registration is confirmed, registrants who requested to attend virtually will be provided the virtual meeting information/teleconference call-in number and passcode. Callers are responsible for paying associated long-distance charges (if any).

Note: Only NAC Members, NAC working group members, FAA staff who are providing briefings, and members of the public who registered and were selected to make a public statement will have the ability to speak. All other attendees will be able to listen only.

The U.S. Department of Transportation is committed to providing equal access to this meeting for all participants. If you need alternative formats or services because of a disability, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Any member of the public may present a written statement to the committee at any time. Written statements submitted by the deadline will be provided to the NAC members before the meeting. Written statements must be submitted to the person listed under the heading **FOR FURTHER INFORMATION CONTACT**. Comments received after the due date listed in the **DATES** section will be distributed to the members but may not be reviewed prior to the meeting.

Signed in Washington, DC.

Kimberly Noonan,

Manager, Office of Stakeholder Collaboration, Management Services Office, ANG–A, Office of the Assistant Administrator for NextGen, Federal Aviation Administration.

Federal Aviation Administration

[Docket No. 2023–1341]

Agency Information Collection Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: Competition Plans, Passenger Facility Charges

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on June 23, 2023 under docket number FAA–2020–0385. The collection involves information on the availability of airport gates and related facilities, leasing and sub-leasing arrangements, gate-use requirements, gate-assignment policy, financial constraints, airport controls over air- and ground-side capacity, and whether the airport intends to build or acquire gates that would be used as common facilities. The information to be collected is necessary because it is required by statute that a covered airport submits a written competition plan to the Secretary/Administrator in order to receive approval to impose a Passenger Facility Charge (PFC) or to receive a grant under the Airport Improvement Program (AIP) or Bipartisan Infrastructure Law (BIL). **DATES:** Written comments should be submitted by April 5, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Jane Johnson by email at: *jane.johnson@faa.gov*; phone: 202–267–5878.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA’s performance; (b) the accuracy of the

estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information.

OMB Control Number: 2120–0661.

Title: Competition Plans, Passenger Facility Charge.

Form Numbers: There are no FAA forms associated with this collection.

Type of Review: Renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on June 23, 2023 (88 FR 41184). This collection asks the public agencies to report on the availability of airport gates and related facilities, leasing and sub-leasing arrangements, gate-use requirements, gate-assignment policy, financial constraints, airport controls over air- and ground-side capacity, and whether the airport intends to build or acquire gates that would be used as common facilities. The DOT/FAA uses information submitted in response to this requirement to carry out the intent of §§ 40117(k) and 47106(f), which is to assure that a covered airport has, and implements, a plan to provide opportunities for competitive access by new entrant air carriers or air carriers seeking to expand. The information allows FAA to assess the competitive environment at airports and provide feedback to the airport on suggested improvements.

Once an airport qualifies as covered the collection frequency is as follows: it is required to send its initial competition plan as soon as possible. Upon approval by the FAA of the initial competition plan, the public agency must submit two (2) competition plan updates, in 18-month intervals, while it remains a covered airport. Once an airport has submitted, and the FAA has approved, its initial competition plan and the subsequent two (2) updates, a competition plan is only required if the airport (1) has filed a competitive access report as required by Section 424 of Vision 100, codified as 49 U.S.C. 47107(s) stating it has denied access to an air carrier for gates or facilities within the last six months; or (2) is executing a new master lease and use agreement, or significantly amending a lease and use agreement, including an amendment due to use of PFC financing of gates. If an airport loses its status as a covered airport, no further competition plan updates are required unless or until the airport becomes covered again.

Respondents: Five (5) affected airports annually.

Frequency: On occasion.

Estimated Average Burden per

Response: Approximately 150 hours.

Estimated Total Annual Burden:

Approximately 750 annually.

Issued in Washington, DC, on February 29, 2024.

David F. Cushing,

Manager, Airports Financial Assistance Division, APP-500.

[Docket No. FHWA–2023–0054]

Request for Information on the J3400 Connector and Potential Options for Performance-Based Charging Standards

AGENCY: Federal Highway Administration (FHWA), U.S. Department of Transportation (DOT).

ACTION: Notice; request for information (RFI).

SUMMARY: The FHWA issued regulations establishing minimum standards and requirements for certain electric vehicle (EV) chargers. Subsequent to the publication of this final rule, the Society of Automotive Engineers (SAE) published a Technical Information Report for a new connector standard, known as J3400, which multiple automakers have announced an intention to adopt in the coming years. To ensure the effective implementation of programs that are subject to the minimum standards and requirements and to inform a potential update to the minimum standards, FHWA, in coordination with the Joint Office of Energy and Transportation, is seeking additional information in five areas: on the expectations surrounding market availability for J3400 within EVs and EV chargers; on the technical compatibility of J3400 with existing regulations and safety considerations; on considerations regarding challenges and benefits of the implementation of J3400 at charging stations; on market demands for the continued availability of Combined Charging System (CCS) and J1772 connectors; and potential options for performance-based standards that can reduce the need for future regulatory updates or changes as technology evolves.

DATES: Comments must be received on or before April 5, 2024. Late-filed

comments will be considered to the extent practicable.
