SUPPLEMENTARY INFORMATION:

Authority: 44 U.S.C. 3501–3521.

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery (VBA, VHA, NCA).

OMB Control Number: 2900–0770.

Type of Review: Revision of a currently approved collection.

Abstract: Order 12862 directs Federal agencies to provide service to the public that matches or exceeds the best service available in the private sector. In order to work continuously to ensure that our programs are effective and meet our customers’ needs, the Department of Veterans Affairs (VA) seeks to obtain OMB approval of a generic clearance to collect qualitative feedback on our service delivery for Veterans Benefits Administration (VBA); Veterans Health

Administration (VHA); and National Cemetery Administration (NCA). By qualitative feedback, we mean information that provides useful insights on perceptions and opinions, but not statistical surveys that yield quantitative results that can be generalized to the population of study.

The proposed information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration’s commitment to improving service delivery. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training, or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative, and actionable communications between the VA and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

The solicitation of feedback will target areas such as: timeliness, appropriateness, accuracy of information, courtesy, efficiency of service delivery, and resolution of issues with service delivery. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on the provision of services will be unavailable to the Agency.

The Agency will only submit information collections for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are noncontroversial and do not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;
- Information gathered will be used only internally for general service improvement and program management

purposes and is not intended for release outside of the agency;

- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and

- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

The types of collections that this generic clearance covers include, but are not limited to, Program Satisfaction Surveys; Focus Groups; Customer Comment Cards; Small Discussion Groups of customers, potential customers, delivery partners, or other stakeholders; Cognitive Laboratory Studies, such as those used to refine questions or assess usability of a website; Qualitative Customer Satisfaction Surveys, such as post-transaction surveys and opt-out web surveys; In-person Observation Testing, such as website or software usability tests; and Patient Surveys. As a general matter, information collections under this clearance will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The **Federal Register** Notice with a 60-day comment period soliciting comments on this collection of information was published at 88 FR 147 on August 2, 2023, pages 50952 and 50953.
