Feature added in 2021

Features added in 2021:

Users are now able to:
- Add training in increments of 5 minutes
- Add an alpha-numeric employee identification number
- Bulk upload trainings & employee rosters

Director and Manager-users can now:
- Deactivate an employee
- Edit names and emails for employee profiles not associated with an eAuthorization account
- Manage Schools within the district (add new schools, delete, and edit existing information)
- Print certificates for self from the Print Certificates page
- Search by employee identification number when adding training, or searching employees

Additionally, Director-users are able to:
- Edit district information (including name, city, state, and zip)
- Create a new district in their state for those districts that are not currently listed in the PSTTT

Features added in 2022

For all users:
o   New job titles available for employees/volunteers who do not have Professional Standards training requirements (for example: administrative and non-food service staff or volunteers)
--SFA – Volunteer
-- SFA – Non-food service employee
o   New user history screen allows you to view and edit your own previous roles, job titles and assigned locations for each school year
o   Updated search capabilities that help to easily find the employee/training you are looking for
For manager and director users:
o   Ability to manage schools (add a new school or edit school information) within your school district
o   Ability to deactivate employees
o   Ability to view and edit your employees' user history (previous roles, job titles and assigned locations for each school year)
For director users:
o   Ability to manage school district information (add a new district or edit district information)
o   Ability to reactivate employees
