# ARPA WIC and FMNP State Agency Waiver Request Form

Under the American Rescue Plan Act (P.L. 117-2, ARPA), USDA has the authority to grant regulatory and statutory waivers to WIC State agencies to carry out outreach, innovation, and modernization efforts. This authority extends through September 30, 2024.

In order to expedite response times and streamline the issuance of waivers and flexibilities, we request that WIC State agencies use this template to submit requests to FNS for review. All waiver requests must be submitted by State agency WIC Directors.

If you have any questions while working on your request, please contact your FNS Regional Office.
