

SUMMARY OF CHANGES FOR AP SITE FORMS

Reference	Original Text	Revised Text	Reasons
Section 2 – Report Types – INITIAL REPORT	For the calendar year in which the DOC APR is promulgated, you must submit an Initial Report (DOC/NRC Forms AP-1, AP-2, and required activity forms) to BIS within 30 days after promulgation of the final BIS regulations for all nuclear fuel cycle-related activities that are active as of the publication date.	You must submit an Initial Report to BIS by January 31st, if you commenced nuclear fuel cycle-related activities during the previous calendar year, and have not previously reported activities to BIS.	The APR was promulgated 3 years ago. Initial Report within the context of regulations promulgation is no longer applicable. Any activity that had not been submitted previously now must be reported as Initial Report.
Section 2 – Report Types – NO CHANGES REPORT	If all of the information provided in your most recently submitted report has not changed, you may submit a No Changes Report (Form AP-Q) in lieu of an Annual Update Report..	If all of the information, including contact information and other administrative information on AP-A and AP-B, provided in your most recently submitted report has not changed, you may submit a No Changes Report (Form AP-Q) in lieu of an Annual Update Report.	To clarify that contact information and other administrative information must also remain the same as a requirement for filing the NO CHANGE REPORT.
Section 2 – Report Types – AMENDED REPORT	Changes to previously submitted information must be submitted on an Amended Report. Corrections to information regarding a reportable activity and corrections or changes to company information (e.g., corrections to address, changes in contact information, etc.) must be submitted on an Amended Report within 30 calendar days after the information has changed or the error identified. Amendments to your previously reported information resulting from an IAEA complementary access must be submitted on an Amended Report within 30 calendar days after receipt of a post-complementary access letter from NRC.	Changes to previously submitted information must be submitted on an Amended Report. Corrections to information regarding a reportable activity and corrections or changes to company information (e.g., corrections to address, changes in contact information, etc.) must be submitted using the same AP Forms used previously and the corrections must be submitted within 30 calendar days after the information has changed or the error identified. Amendments to previously reported information resulting from an IAEA complementary access must be submitted using the same AP Forms used previously and the corrections must be submitted within 30 calendar days after the date of the complementary access. Any amended AP Forms should be accompanied with a cover letter addressing the specific change made. If additional information is requested during a complementary access, beyond what is submitted as part of the annual update, Form AP-O should be used unless a preferred alternative is agree upon by either the Department of Commerce or the Nuclear	Additional information clarity

		Regulatory Commission	
Table 1 – Initial Report – Due Date	For the calendar year in which the APR is promulgated, you must submit an Initial Report to BIS within 30 days after promulgation of the final BIS regulations for all nuclear fuel cycle-related activities that are active as of the publication date. For any calendar year that follows the APR publication, you must submit an Initial Report to BIS by January 31st, if you commenced nuclear fuel cycle-related activities during the previous calendar year, and have not previously reported activities to BIS.	January 31st if you commenced nuclear fuel cycle-related activities during the previous calendar year and have not previously reported activities to BIS.	The APR was promulgated 3 years ago. Initial Report within the context of regulations promulgation is no longer applicable. Any activity that had not been submitted previously now must be reported as Initial Report.
AP-A (Instruction)- NO CHANGES REPORT	NO CHANGES REPORT: If the information provided in your most recently submitted report has not changed, you may submit a No Changes Report in lieu of an Annual Update Report	Deletion	The text is not applicable (not used) for AP-A
AP-G.2	Ceased Activity (Closed down)	Ceased Activity	The term “Closed-down” is being redefined (see section below).
AP-G.5	<p>☐ Operating (plant that produces ore on a routine basis)</p> <p>☐ Suspended (plant or its infrastructure is capable of operation but production has ceased)</p> <p>☐ Closed-down (production has ceased and plant or its infrastructure is not capable of further operation)</p>	<p>☐ Operating</p> <p>☐ Closed-down</p> <p>☐ Decommissioned</p>	The Operational Status of the Plant is changed to be consistent with the revised IAEA Guideline. The definition for each term is specified in the Form Instruction and the Glossary of Terms (Supplement 1).
AP-G.6	Annual Uranium Production Capacity (in metric tons):	Annual Elemental Uranium Production Capacity (in metric tons):	For clarification the word “elemental” is added so that the production as reported should reflect the actually quantity of Uranium metal being produced.
AP-G.7	Annual Thorium Production Capacity (in metric tons):	Annual Elemental Thorium Production Capacity (in metric tons):	See above
AP-G (Instruction)	Building Information: Provide the name or	Building Information: Provide the name or	For clarification on the reporting

Question G.3	number for the building, as it appears on the site map submitted with Form AP-B, and, if needed, room number(s) and any additional information that more precisely defines where the reported activity occurs. This information will be used to link the building with the nuclear-related activities that are performed within.	number for the building, as it appears on the site map submitted with Form AP-B, and, if needed, room number(s) and any additional information that more precisely defines where the reported activity occurs. This information will be used to link the building with the nuclear-related activities that are performed within. Satellite extraction facilities should be reported separately from centralized processing facilities.	requirement for satellite extraction facilities.
AP-G (Instruction), Question G.5	Operational Status: Check the appropriate box to indicate the current operational status of the mine	Operational Status: Check the appropriate box to indicate the current operational status of the mine: “Operating” for mine or plant producing ore in any quantity, “Closed-down” for mine or plant not operating but not fully decommissioned, and “Decommissioned”. Note: “Decommissioned” mine or plant is reported only once.	The Operational Status of the Plant is changed for consistency with the revised IAEA Guidelines.
AP-G (Instruction), Question G.6&7	Production Capacity: Provide the design-basis annual production capacity for uranium or thorium at the mine in metric tons, rounded to the nearest ten if the amount is 10 metric tons or more (e.g., 27 to 30, 148 to 150, 1525 to 1500, 15782 to 16000, etc.). If the amount is less than 10 metric tons report that exact number (e.g., 2, 4, 9, etc.). Also provide the actual annual production during the reporting period, rounded to the nearest ten percent. Closed-down mines and plants have a production capacity of zero.	Production Capacity: Provide the design-basis annual production capacity for elemental uranium or thorium at the mine in metric tons, rounded to the nearest ten if the amount is 10 metric tons or more (e.g., 27 to 30, 148 to 150, 1525 to 1500, 15782 to 16000, etc.). If the amount is less than 10 metric tons report that exact number (e.g., 2, 4, 9, etc.). Also provide the actual annual production during the reporting period, rounded to the nearest ten percent. Closed-down mines and plants have a production capacity and annual production quantity of zero.	The word “elemental” for clarity. See “Reason” for AP-6.5 above.
AP-H (Instruction) Question H.3(b)	Quantity on Hand (MT): Provide the quantity of source material (in metric tons U or Th) present at your site as of the date specified in the notification of reporting requirements letter received from the NRC, if you are submitting an Initial Report. If submitting an Initial Report after the collection date specified, or an Annual Update Report, provide the quantity of	Quantity on Hand (MT): Provide the quantity of source material (in metric tons of elemental U or Th) present at your site as of the date specified in the notification of reporting requirements letter received from the NRC, if you are submitting an Initial Report. If submitting an Initial Report after the collection date specified, or an Annual Update Report, provide the quantity of source material present	For clarification

	source material present at your site as of the preceding December 31 in metric tons.	at your site as of the preceding December 31 in metric tons.	
AP-M (Instruction) Question M.3	Identify Exported Item(s): Provide, as appropriate, item dimensions, capacity (volume), throughput, material of construction, identification or serial numbers, name and address of the manufacturer, key specifications of non-nuclear material, and any other information that will help identify the item(s).	Identify Exported Item(s): Provide, as appropriate, item dimensions, capacity (volume), throughput, material of construction, identification or serial numbers, name and address of the manufacturer, key specifications of non-nuclear material, and any other information that will help identify the item(s) including units on all measurements.	For clarification.
AP-Q.3	I hereby certify that the information reported in last year's Initial, Annual Update, Amended or No Changes Report is unchanged for the reporting year listed in Question Q.5 below. To the best of my knowledge and belief, the submitted information is true and complete.	I hereby certify that the information reported in last year's Initial, Annual Update, Amended or No Changes Report is unchanged for the reporting year listed in Question Q.4 below. To the best of my knowledge and belief, the submitted information is true and complete.	To correct a typo
AP-Q - INSTRUCTIONS	Submit this No Changes Report form only to certify that the information reported in the last submitted Initial, Annual Update, Amended or No Changes Report for your site has not changed. If you have not previously submitted a report, you may not use this form.	Submit this No Changes Report form only to certify that all of the information (including POC, address, and activity) reported in the last submitted Initial, Annual Update, Amended or No Changes Report for your site has not changed. If you have not previously submitted a report, you may not use this form.	For clarification
Supplement 1 - GLOSSARY OF TERMS: Operational Status of a Plant:	Operating A plant that operates on a routine basis. Suspended A plant that is capable of operation but where production is not occurring. Closed-down A plant that is not capable of operation and where production has ceased.	Operating A plant that produces ore materials. Closed-down A plant that is not operating but not fully decommissioned. Decommissioned A plant that was decommissioned.	The definition on status of operation is changed to be consistent with the IAEA Guidelines for AP Declarations.
