1. Introduction

The purpose of this document is to list all the data elements of the host site application collected online through the Fellowship Management System (FMS). The FMS online host site assignment module is a streamlined mechanism for agencies, who are interested in hosting fellows of the Centers for Disease Control and Prevention (CDC) fellowships to submit their assignment proposals online and track statuses of the application processes. The FMS is a robust flexible framework and is successfully tailored for various CDC fellowships. The following fellowships use the FMS Host Site Application module to collect applications from federal and non-federal public health agencies and organizations:

1. Epidemic Intelligence Service (EIS)
2. CDC E-learning Institute (ELI)
3. Epidemiology Elective Program (EEP)
4. Future Leaders in Infections and Global Health Threats (FLIGHT)
5. Laboratory Leadership Service (LLS)
6. CDC Steven M. Teutsch Prevention Effectiveness (PE) Fellowship
7. Public Health Associate Program (PHAP)
8. Public Health Informatics Fellowship Program (PHIFP)
9. Preventive Medicine Residency and Fellowship (PMR/F)
10. Population Health Training in Place Program (PH-TIPP)

1.1 Document Structure

This document is broken down by the major pages of the FMS Host Site Application. In this document, each page of the FMS Host Site Application has sections and some sub-sections. In addition, application instructions, login, and registration pages are included.

Following the screenshots in each section is a table that shows the status of the collection of data elements by each CDC fellowships. The following labels indicate the status of the collection:

- “Yes” indicates that the fellowship collects the information and that alumni are required to submit this information.
- “No” indicates that the fellowship does not collect this information.
- Open Text Response indicates an open text field for responding to the prompt

In addition, the table shows the data values of each data element, and for ones that have a list of dropdown values, the data value category is hyperlinked to its list located in the Appendix.

8. Activities/Projects

8.1 Activity/Project Details

INSTRUCTIONAL TEXT

PE Project Details:

Provide a project description for the fellow assigned to your organization. The proposed project might include; a literature or systematic review, a cost analysis, a cost effectiveness analysis, or some sort of modeling activity.

- Two year time frame. The project and activities can be accomplished in two years
- Meet fellowship goals: The project/activity must evaluate cost, effectiveness, and/or overall impact of a public health program or activity.
 - Project detail: Each project must have enough detail to inform fellow decision-making during the application and match process. Assignment summaries will be shared with chosen applicants prior to interviews.
- Meet fellowship performance requirements: the proposal must allow for fellows to complete the required activities:
 - Develop two manuscripts suitable for publication
 - Deliver two scientific presentations
 - Develop one policy brief,
 - Deliver two methods-based educational sessions
- Allow for training: The proposal must allow for required training which will take up to 8% of the fellow's time.

PHAP Activity Details

Please list each activity that the associate will be performing related to the statement of need for the proposed assignment. There is no limit to the number of activities that can be entered, however, most successful applications contain between 6 and 10 activities. Keep in mind that the associate's level of responsibility and skills should build over time and increase from year 1 to year 2 of the program, and their activities should reflect this progression.
