

Training Evaluation: Healthcare Outbreak Prevention and Response Curriculum for Public Health Departments

Data collection instrument: Public Health Program Impact of Trainings

Data Elements	<p><u>Outbreak Response Training</u></p> <p>1. Did anyone from your program participate in CDC Healthcare Outbreak Response Training Course? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unsure</p> <p>If yes,</p> <p>2. How helpful was this training course in increasing your staffs' knowledge on how to conduct HAI/AR response and prevention activities?</p> <p>3. Did this training course provide training resources that reduced burden on you or your program staff?</p> <p>4. How could this training be improved to make it a more effective learning experience for your staff?</p> <p>5. What part of this course was most helpful for your HAI/AR Program?</p> <p><u>Outbreak Response Training - Case-study/Tabletop Exercise</u></p> <p>6. Did anyone from your program participate in the CDC Healthcare Outbreak Response Case-study Tabletop Series? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Unsure</p> <p>If yes,</p> <p>7. Which tabletop exercise(s)?</p> <p>8. How helpful was the tabletop exercise(s) in increasing your program's workforce capacity to conduct HAI/AR response and prevention activities?</p> <p>9. Did the tabletop exercise(s) provide training resources that reduced burden on you or your program staff?</p> <p>10. How could the tabletop exercise(s) be improved to make it a more effective learning experience for your staff?</p> <p>11. What part of the tabletop exercise(s) was most helpful for your HAI/AR Program?</p> <p>12. Has your HAI/R program utilized the CDC Healthcare Outbreak Response Case-study materials for internal or external training activities?</p> <p>If yes,</p> <p>13. Which materials has your HAI/AR program utilized for internal</p>
----------------------	--

or external training activities?

14. For whom did your program facilitate the Outbreak Response Training – Case-study (check all that apply)?

- Regional HAI/AR Staff
- Local Health Department Staff
- Other (**please specify**)

Healthcare Infection Prevention and Control (IPC): Foundational Training

15. Did anyone from your program participate in CDC Healthcare IPC: Foundational Training for HAI/AR Programs course?

16. How helpful was this training course in increasing your staffs' knowledge of foundational IPC practices?

17. Did this training course provide training resources that reduced burden on you or your program staff?

18. How could this training be improved to make it a more effective learning experience for your staff?

19. What part of this course was most helpful for your HAI/AR Program?

Public reporting burden of this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB Control Number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30333; ATTN: PRA XXXX-XXXX
