

PPS-Exempt Cancer Hospital Quality Reporting (PCHQR) Program
Web-Based Application for Clinical Care Measures
Online Data Entry Tool Content for FY 2017 and Subsequent Years

Overview

This document provides instructions for using the CMS online web application for reporting Population and Sampling data for the five Oncology Care Measures.

The Population and Sampling application enables a PPS-Exempt Cancer Hospital user or their contracted vendor to enter the population data of Medicare and non-Medicare patients that meet the inclusion criteria for the Oncology Care Measure set. The user or their contracted vendor can also indicate if they are submitting all of the records that meet the inclusion criteria, or if sending a sample, they can identify the frequency of sampling and the number of records that will be included in the sample.

Accessing the Web-Based Application

The user enters their assigned User ID and password to access the secure site and information for their individual hospital.

Final web design is subject to change as it is dependent on web real estate and IT capacity. Changes will not impact the data elements but rather the application layout.

Figure 1 Sign In

The screenshot shows a web application interface with a navigation bar at the top containing 'Home', 'My QualityNet', and 'Help'. The main content area is titled 'Sign In to My QualityNet' and contains a form with the following elements: a 'User ID' text input field, a 'Password' text input field with a 'Forgot your password?' link, a 'Sign In' button, and a 'Need a QualityNet account? Begin the Registration Process' link. A note states: 'By signing in you agree to our Terms of Use.'

Manage Measures

After selecting the “View / Edit Population and Sampling” link under Manage Measures, the user selects the Reporting Period and selects the **[Continue]** button:

Figure 2 View / Edit Population & Sampling Selections

The screenshot shows a web application interface for 'PPS- Exempt Cancer Hospitals'. The main content area is titled 'View / Edit Population & Sampling | Start' and includes a timestamp '02/12/2014 12:53 ET'. A note states: 'Population and Sampling Rules must be defined each quarter. Previous values do not carry forward to new quarters.' Below this, there are navigation links: '< Exit to My Tasks | Return to Start'. The form contains a 'View / Edit Population & Sampling for:' section with a 'Provider Name and ID#:' text input field and a 'Reporting Period:' dropdown menu with a 'Continue' button. At the bottom, there are navigation links: '< Exit to My Tasks | Return to Start'.

Sampling Frequency Selection

The user will select the sampling frequency: Quarterly, Not Sampling, or Not Applicable.

Reporting – Initial Inpatient Population and Sample Size

The reporting is identified as Medicare and Non-Medicare.

NQF 0382 - Sample Frequency: Not Sampled

Not Sampled Patient Population	Number
Total Initial Patient Population	
Medicare Initial Patient Population	
Non-Medicare Initial Patient Population
