

## Rocky Mountain National Park

### 2020 Timed Entry Permit Survey

Rocky Mountain National Park would like feedback from visitors who obtained a Timed Entry Permit from Recreation.gov between June and October 2020. Participants are asked to provide feedback on their experience while visiting the park under the implementation of the Timed Entry Permit System, expectations for their visit to Rocky Mountain National Park, and management topics at Rocky Mountain National Park.

The survey will take about 15 minutes to complete and all responses are anonymous. Visitors who obtained more than one permit during the system will have one opportunity to respond. Please read each question prompt and instruction carefully and provide responses in regard to your visit.

**PAPERWORK REDUCTION and PRIVACY ACT STATEMENT:** The Paperwork Reduction Act requires us to tell you why we are collecting this information, how we will use it, and whether or not you have to respond. We are authorized by the National Park Service Protection Interpretation and research in System (54 USC §100702) to collect this information. The routine uses of this information will be for the benefit of NPS Managers and Planning staff in Rocky Mountain National Park (ROMO) in future initiatives related to the visitor use and resource management within the site. The data collected will be summarized to evaluate visitor uses and expectations during their visit at ROMO. Your responses to this collection are completely voluntary and will remain anonymous. You can end the process at any time and will not be penalized in any way for choosing to do so. All contact information collected for the purpose of the follow-up survey will be destroyed at the end of the collection period and no personal identifiable records will be maintained or stored for any purposes. Data collected will only be reported in aggregates and no individually identifiable responses will be reported. A Federal agency may not conduct or sponsor, and you are not required to respond to, a collection of information unless it displays a currently valid OMB Control Number 1024-0224. We estimate that it will take about 15 minutes to complete this on-site questionnaire. You may send comments concerning the burden estimates or any aspect of this information collection to: Dr. Jeremy Sage, Associate Director, Institute for Tourism and Recreation Research, 32 Campus Dr. #1234, Missoula, MT 59803; 406-243-5552 (phone) jeremy.sage@umontana.edu(email); or Phadrea Ponds NPS Information Collection Coordinator at pponds@nps.gov (email).
