

APP QUESTIONNAIRE

INTRODUCTORY TEXT

NOTE TO REVIEW: Information in the “Introductory Text” section will be presented to respondents during the onboarding (i.e., app-introduction process).

Thank you for agreeing to participate in this important research study for Yosemite National Park.

Every year tens of thousands of campers have outstanding wilderness experiences in Yosemite National Park. To ensure that campers can continue to have outstanding experiences, the park periodically surveys visitors about their camping experiences.

This questionnaire asks about your group and your trip, your past wilderness experience, and your wilderness experiences on this trip. Your responses are vital to the sustained stewardship of Yosemite Wilderness.

It is important to note that your responses are confidential. While we ask you to provide your wilderness permit number, no personally identifying information from your permit will be included in this study’s analysis. Additionally, any references to your permit will be removed from the data prior to publication. If you have any questions about data privacy, please see [*data privacy statement provided by third-party app-developer; Insert statement about IRB approval with appropriate University and approval information*].

PAPERWORK REDUCTION and PRIVACY ACT STATEMENT: The Paperwork Reduction Act requires us to tell you why we are collecting this information, how we will use it, and whether or not you have to respond. We are authorized by the National Park Service Protection Interpretation and research in System (54 USC §100702) to collect this information. The routine uses of this information will be for the benefit of NPS Managers and Planning staff in Yosemite National Park (YOSE) in future initiatives related to the visitor use and resource management within the site. The data collected will be summarized to evaluate visitor uses and expectations during their visit at YOSE. Your responses to this collection are completely voluntary and will remain anonymous. You can end the process at any time and will not be penalized in any way for choosing to do so. All contact information collected for the purpose of the follow-up survey will be destroyed at the end of the collection period and no personal identifiable records will be maintained or stored for any purposes. Data collected will only be reported in aggregates and no individually identifiable responses will be reported. A Federal agency may not conduct or sponsor, and you are not required to respond to, a collection of information unless it displays a currently valid OMB Control Number (1024-0224).

Burden Estimate Statement: We estimate that it will take about 17 minutes to complete this on-site questionnaire. You may send comments concerning the burden estimates or any aspect of this information collection to: Nathan Reigner, Pennsylvania State University, nathanreigner@psu.edu (email); or Phadrea Ponds NPS Information Collection Clearance Officer at pponds@nps.gov (email).

INSTRUCTIONS & KEY TERMS

This survey is about your wilderness camping trip in Yosemite National Park. For the purposes of this survey, we are defining your trip based only on the nights that you spend camping in the wilderness of Yosemite National Park. You can see a map of this area here: [map link]. If your wilderness camping trip begins or ends outside of Yosemite National Park, please respond to this questionnaire only for the nights that you are camped in the wilderness of Yosemite National Park. [map link]

One survey should be completed by each permit group. A permit group is the party traveling together on a single wilderness permit.

Each night that you are camping, we will ask you questions about your decisions about where to camp. Each morning we will ask you questions about your camping experience. These questions will refer to two types of locations: your camping area and your campsite. Your camping area is the overnight destination where you camped (for example, a lake or set of lakes; a meadow, pass, or valley; a trail junction or river confluence, etc.). Your campsite is the specific spot within the camping area where you spent the night. Many campsites will likely exist within a camping area.
